Uniform Contract Discussion is Delayed

Failure of Effort to Reconcile Committee Plan With Views of Those Favoring Unified Sale

Discussion of Tree Fruit Board Operations Deferred Till Delegates Meet —Warning of U.S. Propaganda

KELOWNA, Feb. 27.—It is expected that late this morning, Thursday, the report of the Uniform Contract Committee will be presented before the annual convention of the B.C.F.G.A. here, and it is now easily apparent that this matter will provide the outstanding feature of the sessions which commenced Tuesday and which will terminate some time today.

Brisk and Voluble Debate

The convention, far from lacking material for brisk and voluble debate, has been a most interesting one. A few matters involving the Tree Fruit Board provided considerable discussion Wednesday afternoon, but after two days of hanging fire during the course of which there has been much committee studying, lobbying, and pro and con hotel room argument, the uniform contract issue is about to come out in the open for a disposal one way or another on the floor of the convention.

Attempt to Reconcile

The delay in submitting the report of the committee has been apparently caused by an attempt to reconcile its viewpoint with that of the delegations from Kelowna, which is at the convention urging the implementing of the growers' ballot last year that favored some form of unified selling. Central selling, as contemplated by this group, however, cannot be reconciled with the Uniform Contract Committee's ideas according to statements made Tuesday evening by A. W. Gray, Kelowna, and P. W. Ramsay, Okanagan Mission, two members of the Uniform Contract Committee. This committee's report had not Wednesday night been officially made public. The committee's advanced discussions have been carefully carried out as it is explained there is a desire to avoid any faulty construction being placed upon the issue before it finally comes to the delegates as a whole.

Only a very few delegates have as yet seen the proposed contract as it has been drafted. The form in which the contract will be presented, however, can be fairly safely predicted. It is understood that the committee will suggest support for the already quite well publicized three-party idea.

The members of the Uniform Contract Committee make the statement that their intention is to do as little as possible in the present set-up, and their contract now suggests that one of the members of the Tree Fruit Board be constituted as an agency under provincial authority through whom sales would be arranged between growers and shippers at fixed prices to the growers that would vary from time to time in accordance with market conditions.

This then is a nutshell is the proposed plan and it will provide the subject for probably prolonged debate here Thursday afternoon.

It is understood that the committee recommends the incorporation of the Sales on Consignment Act provisions within the contract so as to give a double enforcement protection that it suggests the fixing of maximum pack-

VISIONS BECOME REALITIES WHEN POWERS ARE USED

Chas. A. Hayden Assures Delegates To Annual Convention of B.C.F.G.A.

KELOWNA, B.C., Feb. 25.—"Visions can become realities if co-operatively you use the full powers that lie within your hands," Chas. A. Hayden, editor of "Country Life," said in his address to the annual convention of the B.C.F.G.A. at Kelowna on Tuesday afternoon.

His subject, "Looking Forward," was pointed to the day when a true unity would pervade the ranks of primary producers.

Putting the matter briefly, growers' movements have never been completely successful in Canada because they have never been backed by complete unity," he asserted.

Unity, Mr. Hayden explained, should, in the correct usage of the word, embrace local unity, provincial unity, inter-provincial unity, and Dominion unity. "It means, as I see it, compulsory unity as well."

"Unless your own industry speaks with one voice," he continued, directing his attention to the fruit growers, "disaster will follow."

Most serious in its effect on Okanagan welfare is, besides a number of other factors, the low buying power of prairie farmers. "There must be co-operative action between provinces and particularly between those provinces that lie west of the Great Lakes. You will find it necessary and profitable to establish and maintain intimate contact with the primary producer organizations of the prairies. Such contact

REDUCE FREIGHT RATE BEFORE THE 1936 CROP MOVES

Is Request By Fruit Growers Who Do Not Like Existing Express Rates

KELOWNA, B.C., Feb. 26.—The British Columbia Fruit Growers' Association, oldest farmers' organization still functioning in Canada, was instructed at the annual convention here this week to use every endeavor to obtain from the railway companies a lower freight rate on apples before the 1936 crop moves.

An effort should also be made, the delegates asserted, to obtain rectification of the existing express rates.

A resolution presented by S. Hitt, Armstrong delegate, and strongly supported by every other delegate present, stated that these express rates are not arranged on any reasonable basis in regard to the work entailed or risk on the various commodities, and are causing serious loss of movement to the companies and the growers.

A resolution from Penticton, calling for the formation of a B.C.F.G.A. transportation committee, was also adopted, and in this regard Capt. Porteus, acting President of the Association, explained that such a committee had, in fact, recently been formed.

B.C.F.G.A. BUDGET CALLS FOR \$6,900

Percy French, Vernon, Presents Details Showing How Money Will Be Spent

KELOWNA, B.C., Feb. 26.—The B.C.F.G.A. budget for the forthcoming year will be \$6,900, it was revealed at the Wednesday morning session of the annual convention here. The budget as presented by Percy French, Vernon, and ratified by the delegates, provides \$700 for convention expenses; \$550 as members' dues, at 25 cents each to the B.C. Chamber of Agriculture; \$1,150 to Country Life; \$1,100 as payments to locals; \$900 for the Secretary-Treasurer's salary; \$300 for the President's and Directors' per diem allowances; \$850 for the President's and Directors' travelling expenses; \$400 for Secretary-Treasurer's expenses; \$700 as general expenses; and \$250 for contingencies.

APPLE OF DISCORD MUST BE KEPT OUT DECLARES HASKINS

Tree Fruit Board Head Advises Growers Against the Watch-dog Attitude

KELOWNA, B.C., Feb. 25.—"You as growers may come to regard the B.C.F.G.A. as a sort of critical body and watchdog of the board. I urge you, with the greatest possible earnestness, never to let this happen," stated W. E. Haskins, Chairman of the Tree Fruit Board, in addressing the annual convention of the B.C.F.G.A. at Kelowna on Tuesday afternoon.

"The B.C.F.G.A. is your organization. The B.C. Tree Fruit Board is also your organization," Mr. Haskins continued.

"You made them both, you pay for them. It would be foolishness of the worst possible sort if you allowed yourselves to become in any way antagonistic to either."

The Huddle

Destruction of Marketing Act Forecast by Cutting Estimates From \$1,500,000 to \$106,000

Dominion Government Apparently Plans 'Death Blow' To All New Deal Legislation

OTTAWA, Feb. 24.—Canada's new deal appears at the end of its brief and apparently ineffective career. Already there has been an abundance of indications from all sides that no developments can be expected for some time at least from the much-discussed reform-measures of various parties.

The most vital blow, clarifying any doubt that may have existed of the Liberal attitude, came with Finance Minister Charles A. Dunning's main estimates. Detailed study of the maze of figures revealed that regardless of the Supreme Court's decision on the measures introduced in the final stage of the last session, the government intends making no provision for financing new deal legislation.

This policy has meant a saving of approximately \$7,000,000 in the estimates. Gaining the support of the economically minded the government will face criticism from reformers who favored the measures.

Nearly \$2,000,000 of the saving is found in the abolition of a vote to cover administrative expenses for unemployment insurance. Another effective cut has been in the provision for the Marketing Act which has been reduced from \$1,500,000 to \$106,000. Farmers are also effected by the reduction of the allowance for the Farmers' Creditors Arrangement Act from \$750,000 to \$350,000.

Scrapping of the elaborate voters' revision service introduced in 1935 has accounts for another \$2,000,000. Under this plan the lists would be completely revised each year.

The attitude of opposition leader R. B. Bennett to new deal measures has been striking. A leading figure since the session opened, he has figured prominently in major debates, but has said nothing of reform legislation. Many observers take his stand as definite assurance that the Conservative party has abandoned the policy which its leader outlined in his radio series of a year ago.

Growers Directors For 1936 Named At Kelowna

A. K. Loyd was re-elected president of the B.C.F.G.A. at the first meeting of the 1936 directorate of the association held at Kelowna, Wednesday evening. The directors who were elected by the growers' ballot in the various districts, are: Capt. D. M. Rattra, for the Main Line district; Percy E. French, for the North Okanagan district; Capt. H. A. Porteous for the South Okanagan and W. Keira for the Kootenay district. Mr. Loyd, the president, was elected in the Central Okanagan district. The directorate for the ensuing year is the same as in 1935 with the exception of the Kootenay district in which Mr. Keira replaces C. S. Squire.

International Night Featured

Vernon Business and Professional Women's Club Entertain And Join In World-Wide Celebration With Clubs In 24 Countries—Miss Eleanor Richards Tells of Experiences In Britain and European Lands

Relating in graphic fashion experiences and impressions of Great Britain and several European countries gained during a year's residence and travel, Miss Eleanor Richards, of the staff of the Vernon Elementary Schools, was the guest speaker at a dinner meeting of the Vernon Business and Professional Women's Club, held in the National Hotel on Monday evening. Mayor E. W. Prowse also attended and presented first aid certificates to those who passed the course sponsored by the club.

Miss Richards taught school in Bristol, Wales, under the exchange system between British and Canadian teachers, and during holiday periods travelled widely through southern Europe and the British Isles.

The occasion was "International Night" which this week is being celebrated by Business and Professional Women's Clubs in 24 countries. Over 60 members and their guests gathered to observe the event, one of the most successful ever held by the club.

While in Bristol, Miss Richards taught in the slum districts, being connected for a time with a new type of educational institution in which King Edward VIII, then the Prince of Wales, was a pupil.

HIGHWAY BOARD MEMBERS HERE FOR SOME DISCUSSION

Board of Trade Not Notified and Without Opportunity of Presenting Views Held Here

A group of truckers and carriers met the Advisory Board of the Highway Department in the Valley centres during the past week. On Monday Messrs. E. Johnston and R. J. Stewart, traffic superintendents of the Public Works Department, were in Vernon, on Tuesday in Kelowna, and on Wednesday in Penticton. Apparently there was no public notice of their hearings but they met some of the truckers by appointment.

Their stated mission was to interpret the Highways Act but at least one of the firms at whose instigation the Vernon Board of Trade met for discussion of the act, last week, was not notified of the hearing which was held in the Court House.

It is said to be the intention of the department to enforce the act which went into force on July 15, 1935, the provisions of which are generally unknown to the public.

(Continued on Page 12, Col. 5)

Business Joins Dairy Farmers Rebutting Action Which Would Destroy Splendid Local Markets

Price Levels Were None Too High To Maintain Decent Living Standards

A fighting mood was the temper of many citizens, businessmen and farmers when they understood the details regarding the upheaval in the Interior wholesale butter markets last week. Quotations declined a further 1c per pound on Monday morning. Losses to dairymen will be heavy and the result is certain to be felt in curtailed buying. It is estimated that 4,000 people rely more or less entirely upon their cream cheque income to provide the necessities of life.

One leading Vernon business man who placed himself wholeheartedly on the side of the local dairy farmers was H. Pout, manager of the Hudson's Bay store in Vernon. Over the week end, Mr. Pout endeavored to stir the Board of Trade to direct action. He suggested a meeting of all local business men to place themselves solidly behind the dairymen and take whatever action might be necessary to prevent butterfat prices here being forced down to the low levels paid dairy farmers in Alberta.

School Estimates Showing \$7,400 Increase Approved By Vernon City Council

PROVINCIAL FORCE ASKED TO BID ON POLICING VERNON

Police Commission Wishes To Know Cost and Attitude On Present Personnel

Provincial Police authorities at Victoria have been requested to submit a bid for the policing of Vernon.

This is the outcome of a meeting of the Police Commission on Thursday night of last week, and is the first major step towards implementing the wishes of the majority of the taxpayers as expressed in the plebiscite at the time of the civic elections.

Mayor E. W. Prowse states that in the communication dispatched the authorities were asked, in their consideration of costs, to include taking over as headquarters the present buildings and equipment owned by the city. The Commissioners also desire to learn the attitude to be taken towards the four members of the present force in the event of a change-over.

Still another angle to be remembered is in connection with Chief of Police R. N. Clerke, who, although he has reached the civic retirement age, still has five years to go to provincial superannuation. Yet a further consideration is that the government pension fund is short, and while the amounts will be paid, they are charged back to the city with five per cent. interest.

When word is received from Victoria, the Police Commission will make a report, states Mayor Prowse, and then put the matter before the Council for its decision.

Should a contract be made, it must be for one year, but can be terminated at any time afterwards on three months' notice.

(Continued on Page 12, Col. 5)

ASSASSINATION OF JAPANESE LEADERS FAVORING PEACE

Militaristic young Japanese army leaders, who declared they wished to remove corrupt influences from around the throne, before dawn on Wednesday assassinated at least three cabinet ministers, including the premier, in a dramatic and vicious thrust to practically wipe out all restraining liberal and peaceful influence from the government.

The recent election, which showed a decided swing away from army influence, had established Premier Okada more firmly in power than ever.

Observers of the Far East scene are fearful of the consequences for Russo-Japanese relations, which have been strained greatly in recent months. If the army is in control an aggressive foreign policy is certain.

LONDON, Feb. 26.—British and European capitals fear that as a result of the military coup, war between Japan and Russia, which every Japanese devoutly expects, is brought nearer. The militarists have chafed at the mild attitude taken by the Okada Government toward the incidents on the Soviet-Mongolian border.

Japanese ambassadors have urged nationals in foreign countries to do their best to prevent Japanese securities declining.

(Continued on Page 7, Col. 1)

NORTH AND SOUTH MAIL SERVICE IS BEING CONSIDERED

In reply to numerous pleas for termination of present ridiculous delays in mail services between the North and South ends of the Okanagan Valley, the Vernon Board of Trade has been informed by the Acting Superintendent of the National Mail Service, Ottawa, that the matter is at the present moment receiving the serious attention of the department and it is anticipated that final arrangements will be completed at an early date.

There is no hint given as to what the decision is, nor the nature of the final arrangements to be completed.

There is no doubt either that if the final arrangements are not to the liking of Okanagan Valley residents, that able service will be provided for the postal service, there may be a difference of opinion as to what constitutes finality.

Aldermen Hold That Uncertainty Makes Reduction From \$72,199 An Impossibility

School Board estimates for the coming year, totalling \$72,199, an increase of some \$7,400 over the previous period, have been passed by the City Council. "The school situation is more or less up in the air," remarked Mayor Prowse, "and the Board doesn't know if a new school building will be erected or temporary arrangements made. Therefore, we can't object to the \$5,000 increase in salary estimates."

Alderman Hurl, chairman of the finance committee, declared that he had been over the list item by item and had come to the conclusion that nothing could be cut from it.

The sum of \$1,000 for contingencies was felt by the Council to be necessary in face of the uncertain situation facing the Board. Mayor Prowse further pointed out that as new teachers will have to be secured in the fall more accommodation must be provided.

"We must attend to the education of the young folks, and the only thing we can do is to give them a chance to start right," was Alderman Howie's comment.

The report of the land sales committee provided the major item of business for the Councilors. Two offers of \$250 for lots on Fourteenth Street were rejected and a resolution, moved by Alderman Hurl, adopted to the effect that \$300 was the minimum price that would be accepted.

If the buyer can build a \$3,000 house, he can afford to pay \$300 for the lot, declared Alderman Hurl, and these are two of the finest sites in the city. He also gave it as his opinion that what the prospective buyers intended to do was sub-divide the property and sell the back half. Alderman Townrow also agreed with this view and declared that even if the Council had sold another lot near there for \$250 last year, times were better and the land well worth the extra \$50.

The only opposition to the resolution was by Alderman Wilde, who stated that the city could easily prevent any sub-division, and also pointed out that one year ago a lot had been sold by the city on that same street for \$250. Alderman Berry said that the purchaser of the first lot had by now paid a year's taxes on the property, which will equalize the costs.

An offer by C. F. Costerton Limited, on behalf of a client, for a house and lot for \$550 with a cash payment and terms also did not meet with favor. The general feeling of the Council is that the terms to 1939 are too long, stated Mayor Prowse. Accordingly, a motion was passed asking for the same price on a cash basis.

PENTICTON TO HAVE NEW THEATRE OPEN ON DOMINION DAY

Famous Players Purchase Lot For New Playhouse on the Main Street

PENTICTON, B.C., Feb. 26.—Construction of a new theatre for Penticton at a cost of between \$60,000 and \$70,000 will commence as soon as weather conditions permit, it was announced this week by F. H. Gow, district manager of Famous Players.

The building, to be known as the Capitol, instead of the Empress, will be erected on Main Street, between the Three Gables Hotel and the Ford Garage, on two 32-foot lots purchased from the Penticton Herald Printing and Publishing Company. The contract calls for completion by July 1, and the theatre will be built by A. H. Green, contractor of Nelson.

The Capitol will be equipped with the latest sound and picture equipment, heating and ventilating. The old building will be kept in shape and will probably be opened holidays.

AMALGAMATION OF MINES

KELOWNA, B.C., Feb. 26.—Amalgamation of the Highland Lass and Bell mines on Wallace Mountain, Beaverdel, is expected as early as March 1, following a meeting of Highland Lass shareholders in Kelowna on Tuesday. Stock-owners in the Bell property will receive a larger share in the new company, as it owns the plant and equipment. Capitalization of the new project is expected to be 5,000,000 shares.

COURTIERS PLAY AT PENTICTON

PENTICTON, B.C., Feb. 26.—For the first time in many years, curlers have been able to play. On Sunday last eight men enjoyed several games on the ice on Okanagan Lake, near the Aquatic Club.

High School Principal Pepper Declares His Greater Faith in Boys and Girls Than in Adults

Educationist Reminds Vernon Rotarians That Progress Is An Uphill Climb

"I have great faith in the boys and girls of today. I would rather trust 50 of them than an equal number of adults."

Such was the statement of W. R. Pepper, principal of the Vernon High School, in addressing the members of the Rotary Club of Vernon at their weekly luncheon meeting in the National Hotel on Monday. His thought-provoking remarks were in connection with "Education Week," which is being observed during the Dominion from Sunday last to Saturday next, February 23 to 29.

"Education Week" is sponsored by the Canadian Teachers' Federation, the provincial departments of education, and the School Boards. It is better organized this year than ever before, Mr. Pepper stated. In common with schools, clergymen across the Dominion made special reference to this subject in sermons on Sunday last.

"I think that religious training in schools is well worth while," he said, "we have long wanted some minimum of religion and moral training." However, before the subject can be successfully presented, there must be a plan drawn up in harmony with all teachings, so as to cause no controversy.

Taking as his theme "Education in Changing Civilization," Mr. Pepper stressed at the outset that, contrary to widely held views, everything in the world is not changing.

HOSPITAL WAS OUT OF DEBT HERE IN 1927

At the recent annual meeting of the Vernon Jubilee Hospital Board the statement was made that the hospital is in the best financial position since 1923. From this it might be inferred that this year marks the first time, since 13 years ago, that the institution has been free of debt. That, however, is not the case. At the close of 1927, a study of the annual reports reveals assets of cash and government grants more than offset liabilities, not taking into consideration open accounts owing to the hospital which totalled \$14,672.

CREAMERY BUTTER PRODUCTION
Creamery butter to the amount of 239,348,785 pounds was produced in Canada in 1935, showing an increase of 5,790,981 pounds, or 2.5 percent, compared with 1934. Factory cheese produced in Canada during 1935 amounted to 100,398,282 pounds, an increase of 1.1 percent, compared with 1934.

MOCK TRIAL WILL FEATURE HULCAR LITERARY MEETING

Vernon and Armstrong Artists Will Assist With Program On Friday Evening

HULCAR, B.C., Feb. 24.—The February meeting of the Hulcar Literary Society will be held in the hall on Friday evening, February 28. The Armstrong Anglican Young People will put on a "mock trial" and Rev. L. J. Tatnam will give the address. Miss Robertson, of Vernon, and Mr. Perry, of Armstrong, will assist in the evening's program.

Word was received recently of the death of Miss Anne Stenrod Ford, sister of Aaron Ford, of this district. Miss Ford was born near Galashiels, Berwickshire, Scotland, coming to Canada in 1887, and for a number of years resided at Gault, Ontario.

In 1900 she came to Winnipeg where she lived for 34 years, after which she took up residence with relatives at Donald, Manitoba. She is survived by her sister, Miss Jane Ford, of Donald, and two brothers, Aaron Ford, of this district, and Joseph Ford, of TeAwamutu, New Zealand.

After spending a month's holiday in Kamloops, Miss Kathleen Forbes has returned to her home here.

Rollie Hill is at present hauling logs by truck for T. C. Jones from the Woodhouse and Scott properties to the Smith sawmill in Armstrong.

The Government snowplow made another round trip through Deep Creek last week, putting that road in fair shape for car traffic.

Floyd Parkinson, son of Mr. and Mrs. Stanley Parkinson, underwent an operation in the Armstrong Hospital recently for appendicitis, and at present is doing nicely.

Arnold Graham and his brother, Ormand, are cutting cordwood on Mrs. Couper's property to fill an order for an Armstrong greenhouse.

CORRESPONDENCE

The Blind Leading The Blind

Editor, The Vernon News, Sir:

Would it ever occur to the public to look to the past, present and future when they agree to pass a by-law to mortgage their future whether it is in a town, municipality, city, province or dominion. Who is going to pay back the loan? Our civilization depends wholly on it. Repudiation is back to mob rule.

In the past we have been living on exploitation and borrowed money. At present it is the same only a leaning towards borrowed money. And the future, what?

The producer is away behind in his payment of the taxes he is burdened with. The only bright light, if it is a bright light, is to confiscate, or it may be called a tax, as in the case of the producer, all wages, salaries and incomes, say above fifty dollars a month, or on the relief level. Even at that, it will take us thirty years or three generations to get back on our feet.

It is nearly always the high wage, salary or income parties who are sponsoring the loans, little dreaming it is them and them alone who will pay back the loans. That means paying through their noses as the producer is at present.

Thanking you in advance Mr. Editor, for the space, I remain,
Yours truly,
Lavinton, B.C., Wm. Brent.
Feb. 22, 1936.

TWO KELOWNA MEN NARROWLY ESCAPE A WATERY GRAVE

A. C. Shelley and William Bowser Plunged Into Icy Waters of Okanagan Lake

KELOWNA, B.C., Feb. 25.—A narrow escape from death in the icy waters of Okanagan Lake was the miraculous fate of A. C. Shelley and William Bowser, of Kelowna, on Thursday afternoon last when a motorcycle and sleigh on which the two were riding plunged through the ice near the Westbank shore, sinking instantly.

The men were transporting supplies and baggage of Greyhound bus passengers when the cycle hit an opening in the ice, either an air hole or a large crack.

Mr. Bowser, who is the Greyhound bus agent at Kelowna, got clear quickly and assisted his companion from the water, neither suffering injury other than from a severe drowning.

The men had made several round trips that day without mishap, taking supplies and necessities across to west side residents as the ferry had stopped operating when drifting ice blocked the channel.

The machine and contents which were lying in about 20 feet of water were recovered on Friday, with aid of men who had been ejected from the Wilson's Landing relief camp and were in the city.

KELOWNA-W'BANK FERRY SCHEDULE BACK TO NORMAL

KELOWNA, B.C., Feb. 25.—After having been laid up at dock since Thursday owing to ice conditions on Okanagan Lake, the Kelowna-Westbank ferry resumed operations on Saturday, and a schedule of five round trips per day was inaugurated on Sunday, and has been continued.

When ice conditions became impossible all traffic between north and south came to a standstill, but small amounts of supplies were transported by sleigh and motorcycle. An attempt was made to break through the ice field on Friday with the aid of tug and barge, but although a channel was cut two-thirds of the way across, the remaining distance could not be broken, owing to the masses of ice that had piled into the bay. The following day another attempt was made, which was only successful after dynamite had been used.

Brief though the tie-up was, it had a very disturbing effect on passenger and mail transportation.

Stage passengers were brought as far south as Kelowna from the north, and told that, if they wished to attempt the crossing, the lake on foot, a guide would be provided for them, but that no responsibility would be taken by the stage line. Many made the crossing, leaving this side in the vicinity of Manhattan Beach.

Indians and Gangsters Worry Him

The Duke of Marlborough, his duchess and their four children have arrived in New York for a visit, undeterred though greatly worried about kidnappers, the gangsters and Indians the duke has read about. "You may photograph the duchess and you may photograph me, but you must not take a single picture of my children," he told press photographers when the question came up as to whether a picture of the children would attract a swarm of gangsters. The duke and duchess are shown here as they officiated at the turning on of a new water system in Woodstock, England.

Preparedness For War Is The Price of Peace

By R. F. Wynne

It is a peculiar paradox that the determinations of certain nations to prepare for wars of conquest at the present time, or in the near future, were unknowingly nurtured by the propaganda of well-meaning professional peace-mongers.

The nations which have been scheming for years to launch aggressive wars did not permit peace propaganda to circulate among their nationals; they quietly and secretly armed themselves for their fell purpose. On the other hand the nations which were genuinely working for world peace reduced their armaments even below the bare requirements necessary for their security.

The oft repeated phrase that the last great struggle was a "war to end war" was based upon certain hopeful possibilities which did not mature. Efforts to ensure world peace were, however, made. The League of Nations was an instrument designed to preserve such a peace, and while hopes ran high as to its success, it was realized that this depended entirely on the good faith of all the nations which signed that big "scrap of paper." Coincident with the genesis of the League there was intense propaganda for disarmament. In this regard nations were generally honest, making a start. Each was waiting to see what the other fellow was doing. It was at this juncture that Great Britain decided to reduce her armaments as an encouragement to other nations; and at the same time to show her faith in other members of the League. It was a gesture, Britain's lead, however, was not followed by the Great Powers.

France, for instance, instead of reducing her military strength insisted on keeping her army in the highest state of efficiency. At the time this was a disappointment to Britain—and probably more so to certain nations of Central Europe. The French statesmen, who at that time controlled the destiny of their country, knew what they were doing. They possessed concrete proof that Germany had broken faith, and was re-arming. Great Britain still believed in the plighted word of the Germans.

Frontier Fortresses
It was then that the French General Staff, determined to secure their country against a sudden German attack, proceeded to construct fortifications which reach from Belgium to the Swiss frontier. These fortifications consist of solid cement trenches, following contours most favorable for defense. At well chosen intervals along the whole length of these works great underground chambers have been constructed, capable of accommodating the necessary garrison. In these chambers the occupants will be safe from gas and shell fire, while they provide safe storage for vitals and ammunition. Tunnels connect the chambers with bases in the rear.

This trench system which protects the eastern frontier of France, is a triumph of military engineering. It was constructed solely for defense. It was France's silent answer to the secret arming of Germany for aggression; which commenced almost from the moment when the ink was wet on the scrap of paper known as the Treaty of Versailles.

These fortifications cost France an immense sum, but, even so, she has already received interest upon her investment, at rates which are immeasurable. The price of peace to the French nation was the cost of these defensive works.

Hitler Planned Attack in 1935
It is no longer a secret that Hitler had planned to attack France in the spring of 1935. The German army had again been molded into a perfect war machine, and was ready to take the field. Surprise was the essence of success. At the last moment the Nazi

WHOLE VALLEY IS AFFECTED BY FRUIT GROWERS' WELFARE

Mayor O. L. Jones of Kelowna, Reminds Convention of Vast Importance of Decisions

"Our whole life here in the Okanagan Valley is bound by your determinations," such was the statement of Mayor O. L. Jones, of Kelowna, when he extended a civic welcome to the delegates to the B.C.F.G.A. Convention as the sessions opened in Kelowna on Tuesday morning. His Worship asked for studious care, on the part of the delegates, in examining the various problems to be discussed, as he said, the welfare of all activity was hinged on the matters brought under consideration.

The report of the President was then presented by Capt. H. A. Porteous, of Oliver, Vice-President of the Association, in the absence of A. K. Loyd, in the Old Country.

"The past year has been a time during which the machinery of our operations has been set up and run in," Capt. Porteous declared. "There have been no startling developments, but our machinery is now functioning smoothly and with a minimum of friction."

Capt. Porteous declared that the Association's purpose was to meet all problems fairly, "built as it is on democratic principles," and that it is in the best position "to maintain that unity and solidarity that is so necessary in the preservation and defence of what progress we have made."

The speaker referred to the work of the Grades Committee and drew particular attention to the operation of the meteorological service regarding frost warnings, in reviewing the activities of the past year.

"Another phase of the activities of your association," he said, "has been in its contacts with the Tree Fruit Board. Through your directors, steady contact has been maintained throughout the year, and matters of general interest were fully discussed to the mutual advantage of both parties, and therefore to the advantage of the industry as a whole."

"Let us have constructive and spirited discussion," the acting President advised. "Let the result of our deliberations be of definite value and let us hear this consistently in mind, that from these discussions must come no indication that we are not a united body in our desire to maintain and improve that which we have gained from past labors."

"In these days when the weakness rather than the strength of democratic institutions is being revealed, it should be our duty to miss no single opportunity of adding to that strength, and what better way could there be of adding to that strength than by all of us taking an interest in our Association, using the channels of deliberation it provides, and aiding in the solution of our problems. Our Association, so established, and so strengthened, is then by virtue of that strength able to display that unity and solidarity within our industry that is so necessary in our march in the van of progress."

Capt. Porteous' address was very well received by the large attendance of delegates. All locals were represented, it was revealed by the report for the Credentials Committee as presented by C.F.M. Morgan, of Penticton, and the report of the Secretary-Treasurer, Roger Borrett, was then proceeded with, to terminate the morning session.

The Financial Position
This report, as read by Mr. Borrett, revealed that total receipts for 1935 had been \$6,594. Disbursements had been \$1,500 for the secretary's salary; per diem allowances to the president and directors; \$270 for travelling and incidental expenses of \$939; general expenses of \$743; other expenditures including the Country Life account at \$1,334 and contributions to locals of \$669, amounted to \$2,453; leaving cash in the bank at the end of the year of \$1,126. Less outstanding cheques, the Association showed \$687, as the basis on hand.

The entire revenue of the Association is from grants made by the Tree Fruit Board, it was pointed out in the auditor's statement, as offered by Robert Cheyne.

The total disbursements have been very considerably increased this year owing chiefly to the travelling expenses and per diem allowances, it was further stated in the auditor's report. Payments to the locals last year amounted to \$141.50. This year the amounts paid total \$669. Subscriptions to Country Life were increased by \$173.40.

Mr. Cheyne, as auditor, also emphasized the fact that, no applications having been received for membership in the association, according to the amended by-laws, until these applications are made, the entire voting membership thus consists only of life members.

Everything is in Order
This considerable discussion, J. Shepherd, of Summerland, asking if the whole validity of the convention were not in question. Mr. Cheyne replied that the question should not be overlooked, but it was not a difficult one. A verbal application for membership would suffice, he suggested, that the executive had taken legal advice on the matter, and that proceedings were quite in order. If any grower or trader wishes to join the association, he is construed as a member without further argument. This point was given further brief discussion, but it seemed to be agreed upon, eventually, that no real obstacle was raised, from a legal standpoint, and when the convention stood adjourned, at the lunch hour, it was the general understanding that everything was in constitutional order.

MUST HAVE FAT

Quality in beef cannot exist without a reasonable amount of fat. However, it should not be assumed that, because beef must be fat in order to be good, all fat beef is good beef. Cows may carry a considerable amount of fat, but neither the fat nor the lean from an old animal possesses the desired quality. The fat on usually be distinguished by its softness and high color. The best beef to buy is branded beef.

'SALADA' TEA is delicious

BABS LEARNS A SECRET...
DON'T RISK FAILURES... Experienced cake makers don't take chances with inferior baking powder. That's why you'll find Canada's leading cooking experts use and recommend Magic. They know this famous baking powder gives satisfactory results—exceptionally delicious cakes! And Magic costs so little to use. Actually less than 1¢ worth makes a big cake. Order a tin—today!

MORE IN SORROW THAN IN ANGER

NORTH Okanagan dairymen have the courage of their convictions and the will to victory. When their interests are threatened, when their living is endangered, they do battle.

Directors of the creamery plants at Vernon, Enderby, Salmon Arm, and Kamloops are leaders in a movement which has wide approval and which has as its object the preservation of the livelihood of the several thousand dairy farmers and their dependents, living in and closely adjacent to the Okanagan Valley.

When the Swift Canadian manager at Kamloops decided his firm was going to sell butter in the Okanagan he found out the only way he could do this was by offering a cheaper product. Enjoying splendid business in other lines, he sought the profits for the owners of Swift Canadian which they might have from the sale of butter. If he could bring in low priced butter and sell it in this exclusive market, he might make a name for himself while making profit for his absentee, unknown, and probably foreign owners. He paid no attention to the practice followed by the successful manager he succeeded. He brought in what is thought to be storage, re-worked butter, and offered it at prices which while yielding him a splendid profit, and in line with the starvation payments to prairie dairymen, are very much below what is required to maintain the standard of living to which Okanagan Valley dairymen are accustomed.

When this was done the directors of the Okanagan Valley Co-operative Creamery Association, operating plants at Vernon and Enderby, decided to enter effective protests. They made the information public and immediately there sprang into action the 800 members of their Association and the producers shipping to plants at Kelowna and Salmon Arm. The dairymen made common cause.

Not only did they do this but their conduct has been such that business interests instantly lined up in supporting formation. When the members of the Vernon Board of Trade were informed by President Peters of what was afoot there was amazement and resentment. When The Vernon News story was broadcast there was rolled up a degree of resentment that was astounding. It became at once evident that the business interests realize that the action by Swift's would result in lower prices to producers, that the latter would have less money to spend, and that a vicious circle had been started.

Offers of help came from all sides and business men immediately began to plan to come to the assistance of the dairymen.

HATS OFF TO BASKETBALL BOYS

"HE can't take it," is a slang expression in common use at the present time. It is often uttered as a jeer at some one who has shown irritation or even anger under some provocation. Seldom is such approval voiced as, "He can take it." But it should be said more often than the slightest remark. Not only can "he" take it but "they" can take it.

Seldom has a more fitting opportunity presented itself for this approving comment than was shown on two occasions by the members of the Vernon Senior B basketball team. Recently, they, in common with the senior teams at Kamloops, Kelowna, and Penticton, have played visiting teams of all-stars such as the House of David and the Harlem Globe Trotters. The Vernon News was not privileged to see the games in the other nearby centres but did watch the Vernon team in action.

We want to say, as a result of observation, that "they" can take it. The Vernon boys went out to measure their strength, skill, and teamplay, against these noted outfits, and no person who saw either of these games is entitled to say "They can't take it." They could and did and in taking it, acquitted themselves like men.

Every man and woman who watched these games must have come away feeling pride in the representative players of their home city. The visitors outclassed them in every respect save the important one and there is no proof that in it they would have been their equal. Though plainly outmatched Vernon boys played the best game they knew how and the game closed with them putting just as much effort into it as they had at the start.

It is no mean task to go out before your friends, associates and acquaintances who have told you how well you play, and become a foil for the antics of superior players. It is difficult for one person to do this but when a whole team can and does "take it," it is for you and me who do not play, to give them full credit for their performance.

Hats off to the Vernon Senior B basketball team.

JOKES BY NUMB-SKULLS FOR NITWITS

ONE of the blessings of the twentieth century has been the discovery of food values in vegetables and fruits.

Californians were among the first to realize the value of the emphasis which advertising has placed on the health-giving qualities of certain fruits and vegetables. The citrus fruit growers hired so called experts to spread propaganda extolling their products to high heaven. As a result the demand for and the sales of citrus fruits have increased by leaps and bounds and the consumption of other well known, home grown, wholesome and cheap fruits and vegetables has declined.

Now scientists have discovered that potatoes are just as rich in vitamin C as are orange and tomato juice, and that peppers, good old horse-radish, parsley, turnip greens and the lowly spinach, are more powerful sources of this desired vitamin than is orange juice, while cabbage, cress, peas, parsnips and turnips have about the same amount of this vitamin.

However the highly touted orange juice is out in front. It has now a whole bevy of pseudo-scientists who draw big money for their articles extolling the citrus fruits and promoting their use almost as a cult, while the virtues of the lowly cabbage, cress, peppers, horse-radish and spinach, are the butt of jokes by numb-skulls for nitwits.

AND STILL WE BLAME THE RAILWAYS

WE blame the railways for this and that. The deficits of the Canadian National are staggering and we no longer point with pride to that monumental success, the Canadian Pacific. It is known that the finances of the Dominion are closely linked with the prosperity of the railways. Both have had stupendous assistance from the public purse in lands or cash. It is said their destinies are closely interwoven with the future of the Dominion.

Both railway systems have been bonused and each has made mistakes. Some of these mistakes they now wish

Hell

Ah, tell me what is hell, my friend,
Please tell me what is hell?
Is it a place where stumbling souls
Like thou and I must dwell?

Is it a musty, murky hole
To do our penance in?
Or just a mighty melting pot
Where men are cleansed from sin?

I like to think the God of love,
Who fashioned you and me
Could not consign us to despair
Through all eternity.

For He has shown if one possess
Sufficient love to give
A cup of water to a child,
In heaven one shall live.

'Tis such a little test to pass!
And He who made it small
Must have loved the souls of men
That He made sure of all.

Salmon Arm, B.C.

MAY GORSE.

to correct but they are not permitted to do so. They are forced to continue operation of portions of their systems which are uneconomic and whether their lines are paying well or not, they are willy nilly contributors to the construction and operation of rights of way for their competitors, the buses. It seems hardly fair.

Since the Duff Commission carried out its investigation more than two years ago the railways have asked the Board of Railway Commissioners for leave to abandon 680.69 miles of line. Why? Because it does not pay. And of the 33 individual applications the Commission has said "No" on 216 miles, and "Yes" to 272. Decision is pending regarding 131 miles and on 61 miles the subraisons have yet to be heard.

Of the 33 applications to the board, 29 have been made by the Canadian National Railways and four by the Canadian Pacific Railway. The average mileage of the latter's applications has been considerably larger than for the C.N.R. The aggregate mileage which the C.N.R. wishes to abandon, however, is more than five times as great as that for the C.P.R.

Somewhat strange is the fact that in the two so-called banner provinces, Ontario and Quebec, it is sought to abolish 474 miles of tracks out of the total of 680.69 for all of Canada.

It is true that not all the troubles of the railways are little ones.

What Other Editors Say

HYDROGENATION OF COAL

JAMES KAY IN COWICHAN LEADER:—The coal hydrogenation plant at Bellingham is the first in the world where gasoline on a commercial scale has been made by the hydrogenation of bituminous coal and, as such, marks what may well be a revolution in fuel technology. When time has proved the soundness of the project, it is quite likely that similar large plants will be built in other parts of the country.

When the plant is working to capacity it will be able to produce 150,000 tons of gasoline annually. At the present 10,000 workmen are in normal employment at Bellingham, about 2,000 being engaged in the manufacture of gasoline and necessary services and research. The extra coal consumption required by the plant corresponds to the employment of 2,000 miners.

The coal consumption at the Bellingham works amounts to about 1,350,000 tons per year, made up as follows: For the manufacture of 100,000 tons of gasoline per year from coal and 50,000 tons a year of gasoline from creosote oil and low temperature tar (including coal actually hydrogenated, together with all that is used for hydrogen manufacture and power production), 600,000 tons; for purposes other than the manufacture of gasoline, 750,000 tons.

There will be other developments, more plants and further extension both of works and process, and this will mean more work for miners, the iron and steel industries and engineers. It is claimed that the ratio of four tons of coal to the ton of gasoline produced can be maintained in a new plant even if coal only is used, without creosote or low temperature tar, owing to the improved methods of hydrogen manufacture which would be employed.

INTELLIGENT PAID PUBLICITY

COWICHAN LEADER:—Newspaper associations have repeatedly pointed out to governments that they should use paid newspaper publicity—not as political "pup" but on a strictly business basis. Public affairs surely are given plenty of free publicity, that is, free as far as the governments of the people are concerned but costly to the newspapers, yet paid advertising is at present used very sparingly by governments.

By using intelligent publicity, revenues would be increased, many of the "ignorance of the law is no excuse" charges would be eliminated, and the people would greatly benefit all round. One of the functions of government is to endeavor as far as possible to keep citizens out of trouble rather than to leave them at the mercy of it.

This is not to be construed as condoning evasions knowingly committed, but it is manifestly unfair, as in the case of radio, for some owners to pay no licence for years while others conform to the law, all because of ineffective methods of publicity and collection.

Payment of the radio licences should be properly and completely enforced. Then, as one additional result, radio owners might perhaps get together and demand that something be done about the squawks and station overlapping that ruin so many programs. Reception conditions here are becoming increasingly "terrible" and discontent over the lack of service given by the department is growing.

A NEW INDUSTRY

EVERETT HERALD:—"One of the major changes in the merchandising of fruits and vegetables that has occurred during the past few years is the sale of quick-frozen products. The industry has not attracted a great deal of attention as yet, but it has progressed steadily and already is of vital importance on a few products. This is the statement contained in an article emanating from New York City. Inasmuch as peas grown on our Shoshoneish county farms now are being frozen and sent out of state markets, supplementing the freezing of our berries, the progress of quick-frozen products is of interest to our growers. It gives indication of becoming a valuable adjunct to our canning industry, a new phase promising profitable additions. Agricultural programs of the future sponsored by our various organizations, should bear in mind that the freezing process already has made a start here. Its future depends a great deal upon what we do about it now.

WHY NOT JUST "OKANAGAN?"

PENTICTON HERALD:—Kamloops Board of Trade seems reluctant to give support to the Okanagan Cariboo Trail Association this year because the Trail body seeks to place the Crow's Nest Pass highway in the same excellent condition as the northern route. Kamloops has already endorsed the Big Bend and the North Thompson routes and that is about as far as it thinks it ought to go. In this we think that the Kamloops board is not logical.

On that account live as brave men, and oppose
brave hearts to adverse fate

--- Horace

The Totem Poles At Alert Bay

TOTEM Poles exist in many parts of the world but nowhere are there finer examples of this art than at Alert Bay, British Columbia. There are many legends regarding these exhibits but they are generally accepted to be the personal totems of the families near whose dwelling they are erected. The animals or birds portrayed were usually adopted by male members of the family as a protection against evil, generally through the monition of a dream during the long fast of lads at their initiation into the tribe. Sometimes the elements such as wind, rain, stars or sun are used.

DREAMS

by Sarah L. Fosbery

DREAMS, idle dreams! How they come, and from where, shall we ever know? In youth and in age they are inexplicable. At times they are incoherent, mixed beyond a hope of extracting lucidity; at times as clear and decisive as the apprehensions of our waking hours. Some are such curious mixtures of absurdity and reason that life itself is seen as in a mirror.

Last night, probably because I had been reading some comments on the personnel of the Commons and Senate, I dreamt that appointment to the Senate had fallen to my lot. Great was my surprise, definite my reaction. I sat down and wrote to this effect:

Sir: The honor conferred upon me is appreciated. In consideration of the fact that thousands of Canadians who have done as much as I for their country, are without the necessities of life, and that many people of small means are overburdened with taxation, my conscience will not allow me lightly to add my name to the public pay-roll.

The offer of a senatorship will be considered only if you can convince me that my services in the Senate Chamber are really necessary, and that the seasonal indemnity will not exceed the amount accepted as the standard of living for the working people of the country.

I have tried in vain to discover what is produced by a senator that entitles it to a greater labor wage than that enjoyed by a farmer, a lumberman, a fisherman or a miner. If a senator is producing nothing it is reasonable to regard his state allowance as a relief measure, or old age pension.

Through state aid will undoubtedly be the fate of many to whom it is repugnant if the present policy of over-government continues, I should be greatly embarrassed by a grant in excess of my neighbors. The reflection upon my ability as a manager would be humiliating and quite undeserved; while I should indeed merit their scorn if any portion of a grant from my country were invested at interest. Of course I could give the surplus to other charities, but that seems silly.

I await your reply with mixed feelings, proceeding meanwhile to plan my work so that I may contribute my share of the taxes imposed to support your alternative choice for the seat in the Upper Chamber.

By the way, is the Upper Chamber provided with a sky-light? A glimpse of the heavens illuminates the earthly scene.

Faithfully yours,

Dreams, idle dreams! In them we may sink to depths or rise to heights unknown in waking hours.

JAKE

by Naomi Royde-Smith

Reviewed by Margaret Lawrence

THIS to my mind is one of the nicest books of the year. It is a simple story and yet it is not simple. That is it is written in simple story form, but it deals with the lives of people who are the opposite of simple and in particular about a lad called Jake, who was one of the great mysteries. It opens unpretentiously in a boys' school in England. One of the little boys who plays in the school orchestra has got into trouble with the teacher. The lad, Jake, in the first place insists upon playing upon an unusual violin which he says is a good violin. The teacher doubts it. In the second place the boy informs the teacher that he, the teacher, is playing out of tune. This, of course, will not do in a boys' school. It is mutiny. The boy is punished and his violin is taken away from him. He gets out of his punishment room and collects his violin, taking one of the covers of the library table to wrap around the instrument and runs away. One of the teachers is out for a walk and hears from a cabin miles away from the school the most unearthly music. He goes in and finds little Jake playing to himself. Jake says that he is through school, and the teacher being very unusual in his comprehension says he will take Jake home to his mother.

Jake in his hurry has not taken the time to get his coat, though he has gone to the length of stealing to get a cover for the violin. The teacher buys some kind of a wrap on the train from a good natured travelling salesman who happens to be aboard and from that minute his own life changes. He has taken responsibility for a young genius. For this is what Jake turns out to be. The violin was a rare old violin—the music teacher was playing out of tune. The violin had been a treasure in the family of Jake's mother. It was a good English family in which there had been more than one continental marriage. Jake had in his blood stream, Austrian, Jewish and French blood as well as English. There had been a great violinist several generations back and the violin had come from Vienna to an English manor house. The teacher resigned. He had enough money to live upon and he wanted to write. He was not keen on teaching. He took Jake's violin to a firm of musical instrument

dealers in London. It was pronounced very valuable indeed and worth enough money to pay for Jake's education. He had only been taught so far by the old man who had tuned his instrument for him when he first received it. Jake, to everybody's amazement refused to sell his instrument. The dealers wished to hear him play. They got excited. The boy with a flimsy training had absolute pitch. He showed unmistakable musical scholarship. They offered him the use of another violin—he chose the very best one they had which happened to be also a very old valuable instrument. So an agreement was drawn up. His violin was sold to a collector but on condition that when the collector who was a very old man, was dead, the dealers would have the opportunity of buying it back. It was therefore safe for Jake. Jake and his mother and the ex-school teacher who attached himself to the family went to Austria and Jake studied.

The greatest violinist of the time heard him and undertook to teach Jake. Jake and his mother and the ex-school teacher who attached himself to the family went to Austria and Jake studied. The greatest violinist of the time heard him and undertook to teach Jake. He too was an old man. He gave Jake all he knew and before long the boy appeared on the concert platform as a young prodigy.

It is a beautiful story of strange musical genius. It traces the life of Jake from his small boy years until his twenty-first birthday. It brings into its narrative many interesting people on the continent living in the world of music. It is one of the very few books published in these days which can be recommended to everyone who reads from the children just getting into mature books to the very old readers who dislike the modern trend in fiction. There is nothing shoddy or crude in it. For people interested in music it will be a particular delight. It is interesting also from the aspect of genius psychology, for the detailed story of how Jake's mother and his teacher friend took care of him and allowed him to develop and at the same time saved him from exploitation and also from the almost inevitable twists of psychology coming from a young life forced out into the public and into the reading of emotionally mature music is absorbing to the point of fascination. Jake's mother found herself faced with a tremendous problem and how she put it over is very well worth reading.

From The Vernon News Files of By-gone Days

Enderby won the right to continue in the provincial hockey playoffs at Revelstoke last week when they defeated the local team 2-0 and

TEN YEARS AGO 5-1.—C. J. Williams, of Calgary, will establish a box factory in the city in the near future. The cost will be in the neighborhood of \$20,000.

—About 20 mining claims have been staked on the Kettle River by Vernon men, headed by E. J. West.—The Vernon Jubilee Hospital is asking the City Council for a grant of \$200 for the current year.—Ten making operations have commenced at the Island Ice and Cold Storage plant.—The Rev. Lennox Fraser, a former minister of St. Andrew's Church in this city, passed away last week at Collingwood.—The Vernon City Band has asked the Council for a grant of \$1,500.—The death occurred last week at Whiteman's Creek of Mrs. Louis Deleirer, a daughter of the late Chief Gostamant, who with his brother, Chief Kalamukla, owned at one time immense tracts of land in this district.—The Vernon and District Poultry Association is attempting to sponsor an egg-laying contest here for the Okanagan Valley.—Kelowna junior basketball team defeated the local boys in two games last week to win their way into the finals for the Interior.

Because of numerous complaints from farmers shipping produce to this city, the Vernon Board of Trade is pressing for the erection of public weighing scales.—District ranchers have formed an association for the purpose of introducing a better grade of livestock.—The steamer Sleamouth reached Summerland on Monday for the first time since the lake froze over several weeks ago. Water communication to Penticton will be established about the middle of March.—A honor roll will be placed in All Saints' Church and parents and friends of men who have enlisted and who are members of the church are asked to hand names to the authorities.—Measles and chicken pox are prevalent in the city, especially among school children.—Over 700 applications were heard by the civic court of assessment this week. Many reductions were granted.—An elderly man, Walter Blanchfield, was found dead in a shack on Mission Hill last week. In a convocation held at Oxford university, England, recently, the degree of doctor of divinity was conferred on the Rt. Rev. A. J. Doull, Bishop of Kootenay.

While cutting ice on Swan Lake on Thursday last, a horse belonging to T. W. Robinson broke through and

THIRTY YEARS AGO was drowned. A subscription was taken up and Mr. Robinson

Thursday, March 1, 1906 son was presented with about \$170. Owing to the mild weather, no adequate stores of ice have been put up and an attempt is being made to have the railways grant reduced rates to haul this commodity to the city.—Dr. Gaddes returned on Tuesday from Spokane, Wash., with 62 head of horses in three carloads, which he will dispatch to supply the demand created by the slaughter of animals affected with glanders.—A pair of lynxes were shipped through the city last week. They were on their way to Vancouver for the famed Stanley Park and were trapped at Penticton.—John Hightman and other associates have purchased the British Empire Mine from D. R. Young. The group will soon install a five drill compressor plant and intend to keep the present stamp mill running continuously. N. Klausman has just turned out his first brew of beer, and has distributed samples among people in this city and district.—P. Dickson returned from a trip to the prairies last week and reports inquiries from many people regarding the possibilities for fruit growing in the valley.

A by-law will be placed before the citizens soon asking permission to sell the local flour mill to R. P. Rithet & Company, of Enderby.—The Cariboo claim at Omp

FORTY YEARS AGO McKinney continues to in-

crease in richness as it goes down, and from \$8,000 to \$12,000 per month is now being taken out in gold, besides a large quantity of rich concentrates. While passing through the city on Thursday, Mr. Monahan, one of the owners of the famous mine, left two gold bricks with a local bank valued at \$5,000.—Fatal accident last week on the Commonage.—A near fatal accident occurred at Trout Creek last week, when a boat containing three passengers for the SS, "Aberdeen" was upset by the paddle wheel striking a heavy gale. Two of the men were quite badly battered by the wheel, but were able to cling to the stern until help arrived. An old landmark was removed on the Grouard estate last week, when the barn just west of the bridge, was demolished.—A Chinaman was killed last week while cutting wood in the B.X. When a big tree crashed the unfortunate individual ran in the wrong direction and was immediately struck to earth, his back being crushed.

The Week In Canada

"No Inflation," Says Dunning
Ontario To Have Income Tax
To Stop Export of B.C. Logs
Health Insurance Will Proceed
B.C. Legislature Under Way

DIRECT OPPOSITION TO ANY scheme of inflation was expressed in the House of Commons by Finance Minister Charles Dunning, in his first major pronouncement on monetary policies since the King government went into office. At the same time the finance minister said the government was sympathetic to changes in old age pension laws, reducing the age limit below 70, where it has rested since the act was introduced 10 years ago. The finance minister said conditions today would not permit a resort to a resolution to pay monthly pensions to men and women reaching the age of sixty who were willing to retire from their jobs. It would cost \$500,000,000 if it were made compulsory throughout the Dominion, Mr. Dunning declared.

British Columbia lumbermen are seeking federal legislation to prevent the shipment of logs to Japan where they are prepared in Osaka mills. The British Columbia provincial government prohibits export of logs, except under special license, but there is virtually no control or lumber cut on dominion lands being exported to foreign countries. Lumber officials feel that this action is depriving provincial mills of a rightful share of their work. They also wonder whether the Japanese will invade other industries as they did between 1901 and 1910 when they dominated salmon fishing in Fraser Delta ports. Generally, the lumber production showed a big increase in 1935, with a gain of \$7,000,000 in production value.

An order-in-council will become operative March 1 giving effect to drastic reductions in hospitalization allowance—for all war veterans—other than privates. Word of this action was given in the House of Commons last week by the Hon. C. J. Power, Minister of Pensions. He is also considering referring the order-in-council to a Parliamentary committee which will be established to consider service men's affairs. In general the order revises the basis of hospitalization allowances. The rates previously in force were founded on Army pay while the new rates will be approximately the same as a 100 per cent. disability pension.

The third session of the eighteenth session of the British Columbia Legislature was opened in Victoria this week by the Hon. J. W. Fordham Johnson, Lieutenant-Governor. In mourning for the death of King George V, three formal resolutions were passed expressing the regret of the Assembly at the passing of a beloved monarch, and an expression of renewed fealty to the reigning sovereign, His Majesty King Edward VIII. Further mark of respect for the late King was shown inside the Chamber, which has been draped in royal purple and black for the occasion. Drapes hang around the entrance above the Speaker's chair and also about the late King's portrait.

Legislation looking to regulation of the use of radio for political purposes, particularly during election campaigns and on Sundays, may be expected as a result of the parliamentary committee to investigate radio broadcasting this session. Hon. C. E. Power, Minister of Railways and Marine, has indicated, Mr. Howe's intimation confirmed earlier reports that, at the suggestion of Prime Minister Mackenzie King, the committee will make a careful study of this Hon. C. D. Howe subject. Arthur L. Beaubien, Liberal member for Provencher, Man., since 1921, is mentioned as likely chairman of the special committee on radio. Premier William Aberhart, of Alberta, has been the subject of severe criticism by opposition members of the Legislature, by private individuals, for his use of the radio.

Large fish shipments from Alberta lakes and rivers are being made this year, for the first time, by aeroplane. This novel change was instituted when Chicago and American wholesale firms refused to accept shipments of frozen fish. From April, 1934 to March, 1935, 3,000,000 pounds of fresh fish were taken from Alberta lakes and exported to American markets.

To offset the competition of United States railways which offer air-conditioned trains, ventilating systems may be installed in Canadian passenger coaches with the majority of the work being done by relief labor. Coaches used on main routes would be air-conditioned, officials at Ottawa state, particularly those used on trans-Canada trips. The work is expensive and the railways are working out a plan with Canadian government members whereby unemployed men not working on other relief measures will be used.

Ontario's first income tax bill, taking from municipalities the right to tax incomes and placing the levy in the hands of the province, after second reading in the legislature, without opposition speakers had tried without success to have the government announce its financial position.

The Greatest Hope For Peace Today Lies in The Strength Of Purpose of British People

— Col. E. Poole

Kinsmen Club Speaker Predicts Inclusion of Other Nations in Commonwealth

The greatest hope for peace today lies in the strength of purpose of the people of the British Commonwealth of Nations.

This was the message given members of the Kinsmen Club of this city on Thursday night of last week, by Col. E. Poole, of Armstrong, the guest speaker on the occasion, which was National Observance Night.

"If we show that the ideals of the Empire are the right ones, we shall grow from strength to strength," Col. Poole declared. "Not in glorifying ourselves or our Empire, but in demonstrating that we intend to 'play the game,' we shall, I think, win over smaller and weaker countries to come within our Commonwealth of Nations in the future."

Peace, he asserted, must be one of the great objectives of the Empire. The mother land has already shown that it is willing to lead the way in disarmament, even to the point of extreme danger. But the Empire must also be ready and willing to defend the cause of weaker nations. It must be prepared to fight, if need be, for a just purpose. And if this united purpose is demonstrated to the world, by the British Commonwealth of Nations, the allegiance of the weaker nations may be counted upon, and the depredations of the larger powers may be warded off.

Speaking on the evening when, throughout Canada, 49 other Kinsmen Clubs assembled to commemorate the 16th anniversary of the founding of the organization, Col. Poole linked his remarks closely with the acknowledged national purpose of Kin, to work towards peace.

"You have done me the honor of asking me here tonight to address you on the threefold subjects of unity, fellowship, and peace, on this our Observance Day dinner. You understand that I come with no special qualifications to speak on these subjects but come merely as an ordinary business man," Col. Poole stated.

"In thinking over these subjects I found it hard to separate one from the other, as they all interlock and one is dependent upon the other for its existence."

"For instance peace is impossible without unity and unity is impossible without fellowship. So really, fellowship is the essence of it all, because that is your starting off point."

"I find there are several ways of describing fellowship—brotherhood, companionship, mutual associations of persons on equal and friendly terms, and I submit that it is the lack of these conditions in Europe that makes it such a keg of dynamite. There we find a number of independent nations, each with a separate language, each with its own national aspirations and each looking upon its neighbor with suspicion and distrust."

"Attempts have been made for centuries to form alliances and coalitions, which is a form of unity, but these alliances were made not with any particular feeling of good will or good fellowship but each contracting party entered into them with some ulterior motive of its own, either as a means of strengthening itself for an attack or for defence, or even to throw the other fellow off the scent. And we

read nearly every day of some statesman or other travelling round Europe with a view to forming one of these alliances. They all end the same way, because of the absence of fellowship."

"If we look back over the old alliances during the big wars in Europe we find that after having fought side by side to a successful conclusion the nations generally turned and rent each other afterwards."

"Even after that last great war, feelings ran rather high for a time. And so you see that right down through time the attempts at unity have broken down because there was lacking that all important spirit of fellowship."

"Perhaps the greatest attempt at unity is the League of Nations and even this is and will prove abortive because again it has been kept alive not by the spirit of fellowship, but by the fear of what might happen if it were broken up. What little has been accomplished by it has been through the efforts of the English speaking peoples."

"I've tried to show you that unity is useless without the spirit of fellowship to back it up and have cited instances showing this."

"The one bright case of unity is, however, the British Commonwealth of Nations. Here we see a group of nations spread throughout the world living at peace one with the other and with such a real spirit of fellowship that they are united into one impregnable Commonwealth. True they have one tie in common in their King, a tie so slender and yet so strong, because of the good example of fellowship set us by that King."

"There is no need for me to dilate on the subject of His Late Majesty, except to say that his whole life was one of service to the people of his Empire. And never was the maxim that what we reap we sow better illustrated than in the life of our late King George, and I thank God that he was spared to live through his Jubilee year so that we were given an opportunity to demonstrate to him our feelings of love and gratitude for his life of service. One of the peculiarities of our race is that we do not indulge in much flag waving and talk about ourselves, except upon such occasions as last year and I believe that the spontaneous outburst that showed itself everywhere then will prove to have cemented the Empire ever closer together, for it was a genuine outburst of good fellowship. It woke in us too a better realization of just what our Empire stands for."

"And gentlemen, it behooves us all to be proud of our Empire and proud that we are members of it, for there is something to be proud of not only for what it has stood for in the past or for what it is standing for today but for what it can stand for in the future if we individuals do our part."

"A great heritage has been handed down to us and may we resolve that nothing we may do will help diminish its greatness. I read somewhere the other day that one of the benefits of being able to trace one's family tree was that knowing that one came from a line of men who had always played the game and kept their name clean before the world, one thought twice before doing anything that might tarnish that good name."

"There is quite a lot in that and it applies to us as a race as well as to us as individuals. We come of a race which has kept untarnished its name

Co-Operation in Quintuplet-Land Makes Washday Lots of Fun

It must have been Monday in quintuplet-land when this picture was taken as the world's most famous five baby sisters explored the fascinating intricacies of toy wash-day utensils, complete from clothespins to ironing board, while at play in their nursery in the hospital at Callander. Left to right: Annette, deeply engrossed in a revolving clothesline; Yvonne, who has appropriated the iron and ironing board; Cecile, who is more interested in the bottom of the washtub than anything else; Marie, who is about to sample the taste of a wooden clothespin, and Emelie, who seems to favor the wash-board.

MORE INFRACTIONS OF THE GAME ACT

Two Japanese Fined, One For Trapping Pheasants, Other For Possession

Charged with infractions of the game act, two Japanese residents on the Kamloops road, appeared before Magistrate R. M. McGusty in Provincial Police court on Tuesday morning and were fined \$10 each.

Osaki Matsuami was convicted of illegally setting out traps and his companion, Minoru Mori, charged with being in possession of a Hungarian partridge. Evidence in the case of the former showed that he had been using the traps to kill both pheasants and partridges. The information was laid by Game Warden Charles Still, who also conducted the prosecution.

The two men might not have been apprehended but for the discovery of the traps by the Game Warden while he was putting out grain for pheasants and partridge.

Hungarian partridge are having a bad time this winter, Mr. Still reports, and it is "absolutely necessary" to provide feed for them and for pheasants, as long as there is so much snow on the ground.

Sportsmen in the city and district have been busy for some time assisting Mr. Still to distribute feed and several have also made special trips to places where the birds are known to gather. Anyone having a car and leisure time is requested to assist in this work.

for fair play and may we think twice before we as individuals or nations do anything to sully that name.

"Being a great Empire, however, brings with it great responsibilities. We have tremendous power to bring good or evil into the world and the choice as to how we use that power, whether for good or for evil, lies with us. Use it for the good of good of the world in general and our power will grow, but use it for our own good alone and you will find our power diminishing."

"I understand that one of the aims of your club is the promotion of the spirit of good fellowship and in that you are doing something which not only adds to your own zest in life but you are helping to educate the people of this Empire along the right lines."

"I put it to you as a thought worthy of consideration that many of the smaller nations of the world are looking for a lead. They know that peace can never be established except by a league promoted by good fellowship, and as we are the greatest factor for peace in the world today they are looking to us for that lead. The sooner therefore that we show to the world that our motives are not actuated by gain for ourselves the sooner they will follow our lead."

"Let us resolve then to continue to show that we desire to live at peace with the rest of the world but in spite of this desire also that we are ready to defend ourselves from aggression and a smaller nation from being trampled on. To be in this position we must be armed and trained for the surest way of courting war is to show that we are unprepared for war."

"And finally, what is peace? Does it automatically follow that if we are not at war we are enjoying the blessings of peace? To this I would say emphatically, no, for just as we must have the spirit of fellowship to unite the nations and prevent war so must that spirit be cultivated to the utmost if we are to enjoy the blessings of peace."

"I looked up the definition of peace and among others I found that it meant 'a state of quiet and tranquillity.' Well, we may not be at war but with that definition it would be hard to say that we are enjoying peace. Here again if we English-speaking peoples will take our place in the world we can bring the real blessings of peace into that world. It's not a case of leaving it to our national leaders but of taking our full individual responsibility. If we are imbued with the right spirit our leaders will be the right men to lead us as a nation and as a commonwealth. Hydro-electric power may be revealed in a great volume of water at any one point, but always remember—away back in the hills are those trickles of water that go to make up the full power in the end."

On this occasion of National Observance Night, there was 100 per cent. attendance by the members of the club. President J. J. Mowat, in opening the meeting, traced the history of the organization since its founding in 1920, until the present time when there are 49 clubs and nearly 2,000 members. The message of the founder, Hal Rogers, was read by L. P. "Johnny" Costerton; the message of the District Governor, Archie Smith, was read by Deputy District Governor Russel Neil; while the message of the National President, Percy McGuire, was read by John Tener.

Take Men Off Bread Lines on City Streets By Bringing Up Prices of Natural Products

Dean Clement Pungently Comments On Situation In Addressing Fruit Growers

KELOWNA, B.C., Feb. 25.—"Bring up the prices of natural products and you will take the men off the bread lines in the city streets."

This was the pungent comment of Dean F. M. Clement, of the University of British Columbia, when he addressed the annual convention of the B.C.F. C.A. at Kelowna on Tuesday afternoon.

If farmers are getting a fair return for their crops, the Dean declared, their better financial position will offer a base upon which all the activity of the nation may build towards more prosperous times.

"You are doing a service to the whole nation if you regulate your activities in such a way as to bring a greater return to your pockets," he said, citing the Natural Products Marketing Act as one example of constructive action.

Holding back crops, judiciously cutting down supplies, may be regarded as immoral, but it is no more so than the action of an industrialist in firing labor. Industry as a whole has cut down on labor and has maintained its price level at about 80 per cent. of the prosperous level of the past. Agriculture,

on the other hand, has continued to produce, and prices have slipped, generally, to about half normal.

"I am not advocating firing labor as a good thing," the Dean added. "Labor is a market. The greater the wages of labor, the greater is the buying power of that market. But I do say that if industry cuts down labor and buying power to maintain itself, then agriculture is justified in controlling supplies."

Dean Clement, in the early part of his address, made an interesting survey of world conditions. A policy of protection and reorganization in British agriculture; the extreme nationalism of France, Germany, and Italy; the vast increase in foodstuff production in the Danubian countries; great improvements in machinery; and scientific advance in the general field in agricultural production—from a biological standpoint; all these, he said, are the factors which have led to an enormous pressure of goods on the markets of the world.

U.S. CORN PRODUCTION
The total production of corn for 1935 has been placed at 2,202,852,000 bushels; wheat 603,199,000 bushels; oats 1,195,435,000 bushels; barley 292,249,000 bushels.

EJECTED RELIEF CAMP MEN LEAVE KELOWNA DISTRICT

KELOWNA, B.C., Feb. 25.—Action by provincial authorities regarding the 32 men who have been stranded in Kelowna since they were ejected from the Wilson's Landing relief camp on February 13, has been taken, with the result that ten of them were re-installed and the other 22 have voluntarily left the city.

The men were ordered from the camp when they refused to return to work on the road on the afternoon of February 13, declaring that the cold was too severe. It is reported that they were working on a particularly exposed place in sub-zero weather.

During their ten-day stay in the city they were fed by the local branch of the T. C. H., the Kelowna Welfare Association, and citizens and merchants. Considerable sympathy with the men is felt locally, as while here they did not cause the slightest trouble, and several times stated they were willing to do anything required of them in return for the help they received.

OUR BIGGEST MARKET
Although Canada has a relatively small non-agricultural population for the absorption of surplus production, approximately 85 per cent of the agricultural production in Canada is consumed in Canada, with the remaining 15 per cent finding markets abroad.

LUCKY HOLDERS OF SWEEP TICKETS

"Happy Days" are in sight for Mrs. H. J. Nicklin, of this city, and William Robinson, of South Vernon, as they were this week notified that a ticket held jointly on the Grand Duchy of Luxembourg sweep, based on a race in Paris, France, had drawn a winning horse.

Neither of the fortunate persons, however, know as yet what the amount of their winnings will be, or whether the sum will be paid by cheque or through a bank. The money is in Belgian francs, which are at present very low, although some estimates have placed their amounts at about \$1,200 each.

In any case it will be some time before the Vernon winners "cash in" as the receipt must be sent to Luxembourg and certified correct.

Mothers Approve Guide to Better Control of Colds

Simple Plan Helps Them To Gain Greater Freedom From Colds for Their Families.

EASY TO FOLLOW IN THE HOME

Mothers throughout Canada are now helping their families to have fewer, milder and shorter colds—by following the famous Vicks Plan for Better Control of Colds.

Developed especially for mothers, this practical Plan represents the 30 years' experience of Vicks Chemists and Medical Consultants in studying colds. It has been tested in extensive clinics by practicing physicians—further proved in everyday home use from coast to coast.

Here, briefly, are its three simple steps:

1. To Help Build Resistance to Colds Live normally—avoid excesses. Eat simple food and keep elimination regular. Drink plenty of water. Take some exercise daily—outdoors preferably. Get plenty of rest and sleep.

2. To Help Prevent Many Colds At the first warning nasal irritation, sniffle or sneeze, use Vicks Va-tro-nol—just a few drops up each nostril. Va-tro-nol is especially designed for the nose and upper throat—where most colds start. Used in time, Va-tro-nol helps to prevent many colds—and to throw off head colds in the early stages.

3. To Help End a Cold Sooner If a cold has developed, or strikes without warning, rub throat and chest at bedtime with Vicks VapoRub. VapoRub acts two ways at once: (1) By stimulation through the skin, like a poultice or plaster. (2) By inhalation of its penetrating medicated vapors, direct to inflamed air-passages.

Through the night, this combined vapor-poultice action loosens phlegm, soothes irritation, helps break congestion.

What Vicks Plan can do for you and your family can be proved only by trying it. You'll find full directions for following the Plan in any package of Vicks Va-tro-nol or Vicks VapoRub.

MACLEAN'S
ORANGE TEA PEKOE

Mail one EMPTY 1-pound package to Maclean's, 1206 Homer St., Vancouver, and receive FREE postpaid, a full half pound package of Maclean's Orange Pekoe Tea. On sale all leading grocers. A. MacCulloch & Son, Vernon, Wholesale agents. Large free sample on request. Offer expires March 10th.

Having Yourself Talked About

ON THE ONE HAND—

You are being talked about alright when someone has to needlessly type out copy after copy of some form you want to mail out.

ON THE OTHER HAND—

"Canada's Greatest Trusteeship Guards the Savings of 3,500,000 Canadians"

HON. CHAS. A. DUNNING
Minister of Finance

THE Honourable Chas. A. Dunning, Minister of Finance, very aptly describes Life Insurance as "the greatest economic trusteeship within the boundaries of this country".

"Millions of small investors," points out Mr. Dunning, "rely upon this trusteeship to handle for them their small savings in a manner which would be impractical and impossible for them to do themselves."

Bearing out the truth of the Finance Minister's statement are several important facts:

First—As trustees for thrifty people, Life Insurance Companies distribute millions of dollars each year to policyholders and beneficiaries—keeping

homes intact, relieving distress, educating children and providing financial security in old age.

Second—These Life Insurance Companies in Canada are responsible to more than 3,500,000 policyholders for the administration of savings totalling more than Two Billion Dollars.

Third—The accumulated savings of these policyholders benefit all Canada, through investments in homes and farms—industries and utilities—Government and Municipal securities.

Every Canadian policyholder can feel justly proud of sharing in Life Insurance—Canada's "greatest economic trusteeship".

KETTLE VALLEY DIVISION IS TO SPEND \$450,000

On the Largest Replacement
Program It Has Ever
Undertaken

PENTICTON, B.C., Feb. 26.—The Kettle Valley division of the C.P.R. announced this week the largest replacement program ever to be undertaken, with a total expenditure of almost \$450,000.

This work will necessitate the employment of a large number of additional men on section gangs, extra gangs, bridges, engines, and tractors. It is understood that local labor will be given the preference as far as possible. Importance of the extra work to Penticton comes because of the fact that most of the men employed on the railway maintain their homes here. All wages for the division are paid out of the Penticton offices of the C.P.R.

The largest individual item is a sum exceeding \$150,000 for rails and fastenings. Other large items are tie renewals, \$107,000; track work, \$35,000; culvert and bridge work, \$32,000; and repairs to buildings, \$13,000.

RE-ELECTED LIBERAL CHIEF
PENTICTON, B.C., Feb. 26.—Oscar Matson, of this city, was re-elected President of the Penticton Liberal Association at a well attended meeting on Friday night last.

OKANAGAN ONIONS ADVANCE IN PRICE ON KEEN DEMAND

Col. Poole, Manager Marketing
Agency, Gave Shippers Time
To Fill Orders Booked

Prices for both No. 1 and ungraded onions advanced \$5 a ton to \$30 and \$25, respectively, it was announced this week by Col. E. Poole, manager of the Interior Vegetable Marketing Agency. Shippers, however, were given until midnight Wednesday to purchase supplies at the old figure to make up orders previously contracted, and are allowed three days from this morning, Thursday, to ship.

This price advance is in line with a good Eastern demand combined with falling supplies due the shrinkage and poor storage of much of the crop, shippers state.

GROWERS DEMAND ADDITIONAL NEWS OF OWN AFFAIRS

Regular Information of B.C.
F.G.A. And Executive Meet-
ings Is Convention Request

News letters, giving regular information on the affairs of the B.C.F.G.A., should be published in Country Life, and minutes of all executive meetings should be forwarded to the chairmen of all locals. This was the contention advanced by W. A. Middleton, Coldstream delegate, on Wednesday morning, and a resolution to this effect was adopted. Other resolutions from Naramata, Penticton, and Glenmore, covering roughly the same request, were set aside in favor of the one from Coldstream.

J. A. Trehwitt, Oyama, declared that executive minutes, sent to local chairmen, do not necessarily mean a wide dissemination of facts to the growers. "A chairman may call a meeting," he remarked, "but what if only a few growers turn up?" He advocated giving full publicity to Association affairs in the valley press.

Demands And No One To Back It
Whereas in the past resolutions forwarded by this Local have not been satisfactorily dealt with, or ignored: Therefore be it resolved that in future resolutions from this local be treated as demands, and not requests. There was some amusement from this rather peremptory note from Okanagan Mission, revealed on the agenda of resolutions, and this amusement was doubled when it became apparent that there were no Okanagan Mission delegates on hand, at the time, to speak to that particular resolution.

The growers in attendance at the convention, in a resolution brought forward by P. V. LeGuen, Vernon, conveyed to R. G. I. Clarke, recently retired Chief Fruit Inspector, their appreciation for his "courteous and capable services," and wished him "the good luck and many years of leisure which he so well deserves."

Before adjournment for the noon hour on Wednesday, the delegates enjoyed an illustrated lecture on fertilizers and fertilizing practice, which was presented in an interesting and instructive manner by S. H. Hopkins, of Trail.

VISIONS BECOME REALITIES WHEN POWERS ARE USED

(Continued from Page One)
can only be established through provincial bodies. During the last two years definite progress has been made in this direction and here again it lies with yourself whether further progress, looking to closest co-operation, will be recorded.

The speaker then referred to the work of the B.C. Chamber of Agriculture, and of the "spade work" along similar lines in the east. Manitoba and Saskatchewan co-operatives are solidly behind the Western conference, formed last July, and Alberta is now being organized, with Premier Aberhart revealing sympathetic support.

"This is your organization, just as the B.C.F.G.A. is your organization. Whether you operate it or not is your own business."

"I have no misgivings as to the ability of primary producers in respect of looking after their own business," declared Mr. Hayden in concluding. "It all lies within the bounds of human intelligence—an economic system which will assure producers security and a just return for their services."

The third official estimate of Okanagan wheat production in 1935 is 277,359,000 bushels—3,368,000 bushels more than the second estimate made in November.

First Woman Senator Grets New Arrival

When Mrs. Huey P. Long, wife of the late Louisiana dictator, arrived in Washington to take the senate seat of her late husband, one of the first to welcome her was Senator Hattie W. Caraway, first woman United States senator. Mrs. Long, right, is shown in the above picture being greeted by Mrs. Caraway.

Discussion of Resolutions is Commenced Early at Annual Meeting of The B.C.F.G.A.

Requests—Minister of National
Revenue To Retain Authority
To Impose Dump Duty

Tuesday afternoon at the B.C.F.G.A. Convention in Kelowna, was given over to what might be described as the less contentious resolutions presented for consideration. There was, however, a great deal of valuable discussion, and the various grower-delegates, in the fresh atmosphere of the opening day, made a vigorous analysis of several topics. In addition, they heard interesting addresses from Dean F. M. Clement, of the University of British Columbia; W. E. Haskins, Chairman of the B.C. Tree Fruit Board; C. A. Hayden, editor of Country Life, and secretary of the B.C. Chamber of Agriculture; and R. C. Palmer, superintendent of the Dominion Experimental Station at Summerland. These addresses are reviewed in other columns of this issue.

The first resolution adopted by the convention requested that the authority to impose dump duties or other tariff arrangements that may be made with the same object in view, remain in the hands of the Minister of National Revenue. This request, proposed by R. W. Ramsay, of Okanagan Mission, and seconded by W. G. Littlejohn, of Creston, was given prompt and unanimous endorsement.

"It is well known that dump duties and other tariff arrangements must be handled quickly if the fruit industry is to receive any benefit," was the way Mr. Ramsay commented on the question.

The acting President was authorized to wire Ottawa in support of "the policy of the B.C.F.G.A. in regard to legislation in favor of granting control to producers, and tariffs which in their application and adjustment shall retain for the Canadian farmer his own market, while he can supply it at a fair competitive price."

This authorization followed the passing of a resolution from the Glenmore local, moved by Robert Cheyne. It was explained that the idea was to announce once again the stand of the growers on these important principles at their first convention following the recent general Dominion election. Similar views were pressed before the leaders of all the prominent political parties prior to the election.

"We must reaffirm now, and continue to reaffirm our viewpoint as growers on these matters," declared J. J. Campbell, of Willow Point.

Greater Uniformity of Pack
The Dominion Fruit Branch will be asked to secure more co-ordination of the ideas of their inspectors so as to secure greater uniformity of pack and general condition of the fruit moving to markets. In connection with this resolution, offered by the Okanagan Mission local, the principle of "roving inspectors" was also endorsed. A rider added by the Westbank local, "it once certified by government inspectors, their decision shall be final," was incorporated in the resolution as endorsed.

Disposal of Cull Apples
The whole matter of the disposal of cull apples is to be referred to the central executive for scrutiny. V. R. McDonagh, of Winfield, suggested that cull apples sold to canners or evaporators are really going into competition with better fruit, and yet, in his opinion, are yielding no profit to the grower.

G. A. Barrat, of the Tree Fruit Board, offered a different viewpoint. The market reached in canned apple sales is negligible, he pointed out, in comparison with that of fresh fruits. "We are not displacing any of our own sales in such deals with canneries, and we get at least the cost of dumping which would otherwise be incurred. O. J. Huddleston, of Summerland, agreed with Mr. Barrat, and J. E. Marshall, of Glenmore, expressed much the same ideas.

The resolution as at first submitted, which definitely referred to sales to canneries and evaporators, was then amended by Mr. Huddleston so as to refer merely to the whole question of disposal of cull apples, and in this form the resolution was carried. A careful investigation of the problem presented was asked.

Wants Only Growers on Grades
Committee

The B.C.F.G.A. is primarily a growers' organization, whose object is to promote and protect the interests of the grower. This was the statement made by Mr. Ramsay when another Okanagan Mission resolution was presented, advocating that the Grades Committee be in the future composed of five growers, none of whom shall hold any executive position in any commercial packing or shipping house, "and that this be put into effect immediately."

"At the present time, if you swing one grower member of the committee, the shippers have control," asserted Mr. Ramsay. "Perhaps there might be an axe to grind. I'm not saying there is, but there might be. A shipper might easily be looking to his own advantage rather than to that of the grower."

Claude Taylor promptly disagreed. "We have had excellent co-operation from the shippers in the work of this committee," he asserted. "And at the present stage, I don't think it is possible for a purely growers' organization to give adequate service."

P. V. LeGuen, of Vernon, agreed with Mr. Taylor. "I shouldn't like to sit on a committee of this kind that didn't have a merchandiser on it," remarked James Goldie, of Okanagan Centre, while E. J. Chambers, when called upon to express an opinion, submitted the fact that there had been less differences of opinion amid the grower and shipper members of the Grades Committee as this last season progressed. "If you can't trust the shippers with those features of grower activity," he declared, "then you should eliminate them entirely."

Favors Committee as at Present
The final outcome was that the motion was defeated, and the evident wish of the convention was that the committee should continue to function along lines such as were followed this past year. On a vote being taken only Mr. Littlejohn, Creston delegate, cast a vote in favor of the resolution in the form it was presented, that is, calling for a purely grower representation.

Vernon's resolution, requesting the Fruit Export Board to continue the inspection of loading and unloading of export shipments at ports and on board ships, was passed with a rapidity that indicated sweeping unanimity.

The inspection as carried on during the past year was very beneficial for the growers, it was agreed. This resolution was moved by R. W. Tate.

Another Vernon resolution, suggesting that the inspection work be carried on in the future, under the Dominion Fruit Branch, was withdrawn after considerable discussion. It was suggested that the second request was confusing, coming on the heels of the other resolution which asked the Export Board to continue its work of the past season. It was explained by Percy French that the suggestion was to strengthen the hand of the Export Board.

Possibly the same inspection staff would be used, Mr. French pointed out, but under the stronger authority they might be able to work to better advantage.

Considerable cross-purpose of debate arose and the matter was finally eliminated when Mr. LeGuen offered to withdraw the resolution.

In view of the serious complaints which have been received from the Canadian Fruit Commissioner in Great Britain as to the condition in which the McIntosh apples are received there, the executive of the B.O.F.G.A. is to be requested to go fully into this matter. A resolution to this effect proposed by O. J. Huddleston, of Summerland, was heartily supported.

A resolution from Glenmore also requested that an investigation be made of certain "eyils" in the words of George Bolton, which are the product of the bulge pack. Investigation was requested, and Mr. Bolton suggested that a three-man growers' committee should be asked to conduct a survey in this regard.

ONLY REMEDY IS A CHANGE OF HEART AND RETURN TO GOD

Rev. H. C. B. Gibson Declares
That Civilization Is Totter-
ing Over Precipice

One must always remember that education is something more than a system for imparting knowledge of a given number of subjects and by passing examinations, stated the Rev. H. C. B. Gibson, rector of All Saints' Church, during his sermon on Sunday morning last in connection with "Education Week."

In opening Mr. Gibson explained that the movement is a Dominion-wide one to induce the public to visit the schools to see for themselves in session and generally take a more personal interest in the educational system.

A week's program under the general heading of "Training in Citizenship" has been provided and each day some phase of the subject is being dealt with. The suggested subject for the churches was the first principle of good citizenship, training in right living. Mr. Gibson's text was from Matthew, the sixth chapter, and the third verse: "Seek ye first the Kingdom of God and His Righteousness, and all these things shall be added unto you."

To Build Up Character
"Education worth the name must aim at development of living persons, to bring out the latent capacities and to build up character, fitting pupils for life and for obtaining a living," the speaker declared. "The authorities very rightly put training on laying foundations for right living as the first aim."

Right living depends on character, and this requires mental development and knowledge. Never has there been greater advances in knowledge, through science and discovery, which has brought us more wealth and higher standard of living and social welfare, than at present and yet there is great dissatisfaction in the present state of the world.

The educational authorities speak of the tragic social conditions brought about by our worship of false material values and they are right!

Our present civilization is tottering on the edge of the precipice, and is in danger of sliding into the abyss of moral bankruptcy and destruction. It is lapsing into the same paganism that brought ruin to all the civilizations of past ages. God and spiritual values left out. There can be no right living, which is the first principle of good citizenship, unless material values are balanced by moral and spiritual ones, Mr. Gibson stated.

This very thing was decided once and for all by our Lord when He was tempted to found His Kingdom on materialism. "Command that these stones be made bread." "Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God."

We today are beginning to realize that He was right, the speaker emphasized. Social and material well-being can only be established on true and strong foundations of the eternal principles of putting God first in life. Just as man has discovered that he can only triumph over the forces of nature by obeying them, can he live happily. Bankrupt God and religion from the schools and it is impossible to train the rising generation in right living. The troubles of today are a moral responsibility and the only remedy is a change of heart and a return to God by people everywhere, concluded Mr. Gibson.

Yeah, That's Just The Trouble

Distinguished Pioneers Had To
Give Up On Account of
Freight Rates

KELOWNA, B.C., Feb. 26.—Delegates to the annual B.O.F.G.A. convention here enjoyed a bit of fun-making on Wednesday morning, while Thomas S. Acheson, of Winnipeg, General Agricultural Agent for the C.P.R., discussed "How The Railways Try To Help Agriculture."

Mr. Acheson, genial and well-liked figure at the convention, was laboring under difficulties. A sore throat, he explained, had been contracted the night before. Speaking in a low voice, he had outlined the many developments undertaken by his company in the interests of the primary producer. His remarks were very interesting, but the convention, as a whole, appeared to be taking an early morning doze. Then there was a sudden kindling of interest as "Jim" Goldie, of Okanagan Centre, thrust his booming voice into the topic under review.

"We know, as well as you do, how hard it is to make both ends meet," Mr. Acheson had remarked.

"But have you or your company an apple orchard?" interrupted Mr. Goldie.

"In that regard I'd like to point out that Lord Shaugnessy and Lord Aberdeen led the way in apple orchard work," countered the speaker.

"Yes but they had to give it up on account of the freight rates," came an-

Agriculture were adopted. The one "approved the formation" of these bodies, while the second, from Vernon, went one step further and empowered the B.O.F.G.A. executive to support the B.C. Chamber of Agriculture by taking out a membership. The Vernon resolution as at first submitted contained the proviso that primary producers of Canada give substantial support to the Dominion Chamber before the fruit growers of this province contribute, but an amendment by H. H. Whitaker, of Kaleden, struck this proviso from the wording of the resolution and suggested that the B.O.F.G.A. lead the way. Mr. Hayden explained that there was strong support in the east, and he added that roughly \$70 had been contributed from various sources towards the B.O. Chamber.

Capt. Porteous, from the chair, remarked that at the first annual meeting of the B.C. Chamber, at Vancouver recently, he had signed up on behalf of the B.O.F.G.A., subject to their approval.

"My signature involved 2,200 growers," he remarked, "at a cost of 25 cents apiece, or something over \$500."

The convention pondered the matter for a short time longer but the final decision was to contribute this sum, which, it was pointed out by Capt. Porteous, would come from the central funds.

ASSASSINATION OF JAPANESE LEADERS FAVORING PEACE

(Continued from Page One)
TOKIO, Feb. 27.—Efforts to form a government failing, Emperor Hirohito has summoned a council of the leading surviving statesmen, including those wounded in today's coup and placed them in charge of Tokyo, which is under martial law. The council demanded that 3,000 rebel soldiers withdraw from the government department and that they should not move until a government suitable to them was elected. The Imperial Guard numbering 12,000, is expected to clash presently with the rebels. Heavy snow hampers military operations. The high seas fleet has been ordered home. Strict censorship still prevails and ocean telephones to Tokyo are not being used under orders of the government except for official calls.
A spokesman of the council stated on the air that peace and quiet have been restored.
Those assassinated include Finance Minister, Takahashi; Chief of Military Education, Watanabe; Chamberlain, Suzuki; and it is unofficially stated that Prince Salami, nearest to the Emperor was also killed. Unofficial counts of the dead put them as high as 81.
Denz Stalin Assassinated
VANCOUVER, B.C., Feb. 28.—Moscow government officials deny the report credited to American and Swedish news sources that the head of the Soviet Russian Republic, Josef Stalin, has been assassinated.

Town and District

J. R. Cheesman, of Okanagan Centre, was a Vernon visitor this week.

H. M. Walker, editor of the Enderby Commoner, was a Vernon business visitor this week.

Miss A. Bowman, of Vernon, is leaving today, Thursday, to spend a vacation at Vancouver.

Mrs. W. P. Bristowe, of Ewing's Landing, is at present in this city, the guest of her mother, Mrs. H. G. Wakefield.

M. J. Crehan, of the well known firm of auditors, will be in Vernon today. He will spend some days in the city.

D. J. Roland, manager of the Vernon Safeway store, has been on a business trip to the Kootenays, inspecting company refrigeration plants at centres there.

Clayton H. Johnston, of Vernon, is at present a business visitor to Alberta points. He is expected to return to this city the first of next week.

Mr. and Mrs. R. A. Fraser, of Kelowna, were visitors here on Sunday to Mrs. Fraser's parents, Mr. and Mrs. W. G. Baillie. Mr. Fraser is foreman of the Kelowna Courier.

About 18 members of the Vernon branch of the Canadian Legion visited the Coldstream Community Hall on Tuesday evening for a series of friendly ping-pong matches. Cards were also enjoyed and a social evening.

Of interest to many in this district is the announcement of the wedding at the United Church manse, Kamloops, by the Rev. F. R. G. Drege on December 5, 1935, of Mrs. Gladys Dobie, of Vernon, and John Williamson, of Salmon Arm.

D. McPhee, of Hanley, Sask., arrived in Vernon on Thursday last week to spend a few days in this city visiting his son, Claire McPhee. He left over the week end for Kelowna, where he will visit for two or three months with another son, George McPhee.

Mrs. O. Morris returned to her home in this city on Monday last after several weeks spent at Vancouver. At the Coast city, she was the guest of Mrs. S. Knight, who spent six months visiting with Mrs. Morris last summer.

John S. Vollet, of Vancouver, was a visitor to Vernon from Saturday to Monday. Mr. Vollet has never been in the Okanagan Valley before and surprised by the snowfall, he nevertheless was delighted with the lift it gives one to come into the interior after long residence at the Coast.

Feed the birds. This has been the habit of observant persons for some time. Pheasants and Hungarian Partridge are having an especially hard time because, though liberal supplies of feed have been distributed, they are specially covered by the snowfalls which have been a feature for days.

W. H. Hickman, of Vancouver, left for the Coast on Tuesday after a few days spent in this city visiting his son, Douglas Hickman. Mr. Hickman motored from Vancouver via the United States. Owing to the Kelowna Westbank ferry tieup, he travelled to Vernon by Ewing's Landing and was forced to wait several hours for aid to climb some of the steep snow-covered hills.

The annual meeting of the local association of Girl Guides will be held at the home of Mrs. K. W. Kinnard, on Friday afternoon commencing at 3.30 o'clock. A special invitation to anyone interested in this work is extended by the executive. Chief business of the meeting will be the election of officers for the coming year and presentation of the annual reports of the Girl Guides and Brownies.

Considerable surprise has been expressed that ice conditions at Kelowna should have been such as to cause the ferry to cease operations and that the Pentowna could only run as far south as Summerland. Residents at Okanagan Landing have open water lapping at their doors. On Wednesday night however, they found it almost impossible to make the trip into Vernon on account of the snowfall.

The Rev. Harding Priest, of Calgary, Western Field Secretary of Sunday School and Young People's work, who is at present touring the west, will be in Vernon this week and will confer with Anglican Church leaders of these groups. He will also preach in All Saints' Church at the morning service on Sunday next. Owing to the Empire broadcast of His Majesty, King George VI, which will be heard in Vernon at 8 o'clock Sunday morning, the regular Holy Communion at All Saints' Church will commence at 8.30 a.m. instead of a half hour earlier, as is usual.

Word has been received in Vernon of the death of Mrs. Charles Clark, of High River, Alberta. The late Mrs. Clark was the wife of Charles Clark, the well known publisher of the High River Times, who was a visitor to the Okanagan Valley last summer. Mrs. Clark was in ill-health for a number of years prior to which she was a leader in social and charitable work in the Alberta town where she and her husband made their home. One of Mrs. Clark's daughters, Mrs. Boby, accompanied her father and husband through the valley, and was so much taken with it that she plans to spend a holiday in the Valley this summer.

Okanagan Valley friends of William Forsyth, formerly an employee of the Bank of Montreal in Vernon, who was moved to Duncan and later to the branch of the bank in the Hotel Vancouver, Vancouver, will be pleased to learn that he is now in Kamloops. He will be able once again to visit his friends in Vernon. Mr. Forsyth has recently returned from a visit to England where he was on vacation at Christmas and during the funeral of the late King George V. Mr. Forsyth will be particularly remembered by volleyball players and as a bright light on the Bank of Montreal team in the original volleyball league.

G. Little was a Mara visitor to Vernon on Monday last.

Judge J. D. Swanson, of Kamloops, arrived in Vernon on Wednesday from Kelowna and is at present holding sessions of County Court.

About seven o'clock these mornings a large flock of crows appear to leave their roost in the BX and to fly high in the air over the city towards Okanagan Lake. They return about four o'clock in the afternoon.

After having visited in this city with her brother-in-law and sister, Mr. and Mrs. Graham B. Reid, Mrs. Peter Ross left Vernon on Saturday last to return to her home in Woodstock, Ontario.

H. Legg and F. B. Patterson, of Calgary, custom inspectors, are at present in Vernon carrying out their duties at the local outpost. This is their first inspection in Vernon as the local post was formerly under the direction of the Vancouver office.

Guy Allen, of Vernon, was a visitor to Armstrong on Tuesday. He reports the roads blocked by snowdrifts with several cars unable to move. Going up the trip took an hour and twenty minutes and the return journey an hour and forty minutes for the 14 miles.

Sam Shearer, of Vancouver, Vice-President of the Canadian League against War and Fascism, will address a public meeting in the Oddfellows' Hall tomorrow evening, Friday, commencing at 8 o'clock. During his speech Mr. Shearer will outline the aims of his organization and also talk on the anti-war movement.

Five officers of "A" Squadron of the 1st B.C. Dragoons of this city are leaving Vernon today, Thursday, for Kelowna, where they will be entertained at a dinner by "B" Squadron on headquarters in the new Armory. Penitentiary officers of "C" Squadron are also attending. Those going from this city are Major C. W. Husband, Major S. G. Baldwin, Capt. J. Stamer, Capt. E. Berry, Captain E. Cullen, and H. W. Galbraith.

Word has been received in this city by officials of the Dominion government entomological department from E. R. Buckell, of Vernon, who was appointed by the Dominion Department of Agriculture to Canadian entomologist to the Fourth International Anti-Locust conference at Cairo, Egypt, that the trip has been postponed. Mr. Buckell is at present in Ottawa and was to have sailed early this month.

Secretary Coombes of the Vernon Board of Trade has an inquiry from the Pacific Sportsmen organization in San Francisco, asking what the Vernon district has to offer to fishermen in the way of lakes, type of sporting fish, boats, guides, accommodation and tackle. An Eastern United States party also would like to hunt grizzlies May and desires information as to how to reach the hunting grounds and where to get guides.

The absence of Mrs. Hollick Kenyon, Sr. is noted at the B.C.F.G.A. convention in Kelowna. Mrs. Kenyon has for 20 years furnished witty and amusing material for the convention during stated discussions. She did not attend because of lack of boat service on the Okanagan Lake and the difficulty of road travel around the north end of the lake from her home at Ewing's Landing. Mrs. Kenyon has been regular in her attendance for the past 20 years.

This afternoon, Thursday, has been set aside in "Education Week" as the time when parents of pupils and all others interested are invited to attend the Vernon High and Elementary Schools for first hand information on their operation. At the High School, regular studies will be in progress until 2.45 o'clock, when the Literary Society will present debate and a miniature naval conference. These features, however, are in connection with regular school work. Visitors to the Elementary School will have the opportunity of observing the regular course of studies in each classroom.

Mrs. A. Hollick-Kenyon and a party of friends from Ewing's Landing were in Vernon on Wednesday evening especially to see the official pictures at the Empress Theatre of Rear Admiral Richard E. Byrd's Antarctic expedition and of the funeral of His Late Majesty, King George VI, and the proclamation of Edward VIII as King. This same program will be shown at a special matinee this afternoon, Thursday, as well as at the regular evening shows. Mrs. Kenyon reports the road to be in bad shape with huge drifts.

When "Andy" Patterson, of Slocan, retired from his post of conductor on the S. & O. line of the C.P.R. after many years' service, he declared that he would be busier than when working on his regular run. This has been proved by numerous deeds to have been no idle boast. The latest of Mr. Patterson's feats has been accomplished with the aid of his famous dog team. Owing to blocked communication routes, residents of lonely Seymour Arm, on Shuswap Lake, had been without mail, so Mr. Patterson travelled 25 miles up the arm as far as Nick Evans camp with mail. He was in Vernon on Monday last to obtain a typical "mushing" toboggan for long trips.

Dr. Kaye Lamb, of Victoria, Provincial Archivist, will address a combined meeting of the Canadian Club and the Women's Canadian Club on the "Early History of the Coast," in the Burns Hall on Wednesday evening next, March 4. In addition, husbands of the women members are invited to attend. On Tuesday, March 3, commencing at 3.30 p.m. in the Burns Hall, Miss Jessie McEwen, of Toronto, will speak to the members of the "Early History of the Coast," in the Burns Hall on Wednesday evening next, March 4. In addition, husbands of the women members are invited to attend. On Tuesday, March 3, commencing at 3.30 p.m. in the Burns Hall, Miss Jessie McEwen, of Toronto, will speak to the members of the "Early History of the Coast," in the Burns Hall on Wednesday evening next, March 4. In addition, husbands of the women members are invited to attend.

Government inspection of grades was done last year for the first time and the system was approved. Cull practices were not so satisfactory and the association has recommended that a request be made for a tolerance of five per cent, on which the grower should be paid on the basis of No. 2 tomatoes.

Pre-ripening experiments will be continued through the Kelowna Growers' Exchange.

VANCOUVER PORT MANAGER
Ken J. Burns has been appointed port manager for Vancouver, following the dissolving of the former harbor board.

Gifted Boy Soloist

MASTER DEWI JONES

BELL LIKE QUALITY OF WELSH SINGER'S VOICE IS PLEASING

Dewi Jones and Vernon United Church Choir Give Excellent Choral Concert

A packed church on a cold and stormy night was the reception that greeted Master Dewi Jones, the world famous Welsh boy singer, upon his appearance in Vernon at St. Andrew's United Church, Tuesday evening. And if enthusiasm of applause is a good criterion, then the audience felt immensely pleased with the fare provided for them.

Master Jones opened his program with Handel's "Angels Ever Bright and Fair," and this was perhaps, his best number, as it suited his voice and style to perfection. The boy singer proved himself to be a master of tender and serious church music, stately and solemn and not too heavy. In a clear, sweet voice with natural manner, and every note and word precisely sung, through a most attractive personality, the music captivated the audience from the first, and the success of the evening was assured. The second number of this group, "Only a Little Way," by Martin, was also very well sung.

Coming from Wales, as Master Jones does, the audience expected somewhere in the program something distinctly Welsh. With this they were provided in the second group. First, "The Bells of Aberdovey" was given, and then "David of The White Rock" was sung in Welsh. Although probably all the Welsh people in Vernon were present, there were not many in the audience who understood the words of this song. But surely everybody felt that peculiar plaintive note in the minor key, expressing a national longing for something unattained, the hope long deferred, appointed yet not turned to despair, which is so characteristic of much Welsh music. The number was sung with genuine feeling, and the audience was hushed to stillness, catching instinctively the deep meaning of the song, through the universal language of music.

Perhaps it was inevitable that a concert by a boy of 13 years of age should include "Behrend's Daddy," which opened the third group. Especially when this young singer was recently paid a fabulous sum and transplanted in magnificent air liner from Ottawa to New York to sing half of this song with Paul Whiteman's Orchestra on a program over the air, the number was bound to find the premier place on the program. It is not great music, depending for its power on the sentiment of the thing. The soloist sang it with restraint and an entire absence of emotional heroics, and all were moved by the setting, the tender thought, and the circumstance of a child singing the music perfectly. "Cherry Ripe" was the next number, a bright relief to the emotional intensity of the previous number and was given with clear note and effortless movement. The final group included "Lehmann's Cuckoo," and "Prayer Perfect," by Stenson, the former number earning much applause for its bright yet soft and delicate style. Several encores included "The Lilac Tree," "Good Mornings," "Brother Sunshine" and "Little Moon."

The audience was impressed with the absolute absence of any affectation, as well as the seemingly effortless decision of Dewi Jones' singing. There was not one moment of strain from beginning to end. The diction was most pleasing, and articulation simple and clear, and the touch of Welsh accent only added in attractiveness. Fairly of tone was characteristic, and the sweet, almost tinkling bell-like quality of the voice was entrancing. To his wonderful vocal gifts, Master Jones adds a lovely personality, and a smile and manner that engages his audience from the first bow.

The soloist was ably supported by the Vernon United Church Choir under Mr. Daniel Day's baton. The choir contributed five numbers, "Finlandia, Dear Land of Home," Jean Sibelius, "The Snows," Elgar, "Sylvia," Olej Spenski; "Dickory, Dickory Dock," Allen; and "Good Night, Beloved," Pinsuti. All were excellent and the Elgar and Pinsuti numbers were beautifully sung. Miss Ella Richmond was at the piano for the choir numbers, and also as accompanist for Master Jones.

B.C. TOMATO GROWERS SEEK CULL TOLERANCE

The B.C. Tomato Growers' Association has re-elected its five directors as follows: A. L. Baldock, J. J. Conroy, R. B. McLeod, E. Ueyama and R. Durbin, all of Kelowna. Mr. Baldock has been re-elected as president.

Government inspection of grades was done last year for the first time and the system was approved. Cull practices were not so satisfactory and the association has recommended that a request be made for a tolerance of five per cent, on which the grower should be paid on the basis of No. 2 tomatoes.

ing charges; also leaving shippers free to determine the form of container they individually might wish to use, and an important point from the shippers' viewpoint, obliging growers to continue with any shipper to whom they are in debt until such time as that debt is wiped out.

Defeat Discussion of Board

A few matters dealing with the Tree Fruit Board activities came up for discussion at the Wednesday afternoon session. Generally speaking, however, the attitude taken has been that such topics, unless they definitely involve the B.C.F.G.A., should be deferred until the convention of delegates, who elect the Tree Fruit Board, is held. For example a resolution censuring the Tree Fruit Board for its actions regarding the auditor, was withdrawn by Glenmore delegates. Others have contended that the B.C.F.G.A., as the growers' chief organization, should discuss anything and everything involving growers' affairs, and that the Tree Fruit Board and the B.C.F.G.A. should not be regarded in that sense separately.

A resolution from Ellison was presented asking that control of the members of the Board should be through the B.C.F.G.A. This was defeated by an extremely heavy vote.

The Goldstream resolution requesting organization of the growers under the Marketing Act, strongly pressed by A. D. Heriot, was turned down without support from any other source. T. G. Norris, K.C., spoke on the question and gave it as his legal opinion that growers' associations have no right to so organize under the terms of the act.

Resolution is Amended

Glenmore's resolution endorsed by Okanagan Mission, which would prohibit any employee of the Tree Fruit Board from acting as a director of the B.C.F.G.A., or a delegate to the boards electing conventions, was finally amended so as to lift the ban on the B.C.F.G.A. director. Capt. Rattray declared that he was appointed by and representative of the growers of the Main Line district and was not really appointed by the board at all. The resolution still provided for barring election convention delegates from receiving pay from the board, and as such it was carried with Mr. Haskins agreeing that the principle was sound.

Other decisions of the convention were to the effect that there is too great an export of "C" grade apples. On a close vote the delegates showed that they also favored reducing cull requirements on Mac grades, and listing this apple as a striped variety.

Closed Packages Approved

Vernon's resolution asking the remedying of uncontrolled fruit deliveries to Great Britain was strongly sustained, and a vigorous plea for a return to Quebec crates was made by Ellison and Glenmore delegates, but a very heavy vote on the floor of the convention showed sweeping approval of the closed

Students of the new deal point to the failure of the O.C.F. in the last election gaining only seven seats. Probably more significant was the crushing defeat of the Reconstruction party. Mr. Stevens has bobbed up several times in the present session, most recently to attack deception in grades and container sizes for canned goods.

Agricultural Minister, James G. Gardiner, assured him that the matter was receiving attention. Mr. Stevens, as lone Reconstruction representative, has spoken with vigor, but without support he can not be regarded as an effective factor in the House.

Registered beekeepers in British Columbia now number 3,129, an increase of 635 during the last year.

HARVEY'S RINK IS WINNER OF PRIZED KELLY DOUGLAS CUP

Fintry Cup Is Open For Competition Aspirants To Play Murphy Rink

Dr. J. E. Harvey's rink, comprised of C. A. McWilliams, third; B. Dickinson, second; and R. Moore, lead, annexed the Kelly Douglas Cup in the finals on Tuesday night from Ivan Crozier's aggregation. The members of the defeated rink are A. J. Gallenhan, third; W. James, second; and A. Langstaff, lead. Play is now on in the Murphy Rink and it is expected that the finals will be played either this week end or the early part of next. Draws for the Hudson's Bay Shield have only recently commenced and following its completion, play on the Grand Challenge will start. This competition will go on as long as the ice lasts, as to be completed some 356 games are necessary.

The Fintry Cup is now open for competition, states Vice-President H. J. Fallow, and challenges are to be handed in to P. H. Murphy, skip of the rink now holding the trophy. Recently Mr. Murphy's rink wrested the cup from Capt. J. C. DunWaters, who two weeks ago recaptured it.

However, while attending the Pacific Coast Bantam at Vancouver, Capt. DunWaters asked officials of the Vernon Club to throw the trophy into competition against the former holders. This is because of his impending absence.

JUVENILE HOCKEY PLAYERS WIN OVER ARMSTRONG RIVALS

Vernon's juvenile hockey squad emerged victorious over its Armstrong rivals to the tune of 6-5 in a fast, rugged encounter on the city's ice on Friday night last.

Goal getter for the local team were Postill with two, Simms, Dobie, Kwong, and Pepper, while the Armstrong sharpshooters were Murray, Fisher, Parks, and Scrooge with two nice efforts.

Vernon Juveniles: Hammond, Northcott, Postill, Simms, Pepper, Dobie, Kwong, Turnbull, and Rolston.

C.P.R. AGENT AT ENDERBY GOES TO PORT HAMMOND

ENDERBY, B.C., Feb. 24.—C.P.R. station agent Pelley, at Enderby, is being transferred to Port Hammond. His place at Enderby will be filled by H. J. Chomst, now at Yale.

The Enderby Library Association closed the library on Saturday, and are awaiting further developments regarding the Union Library program. About 80 citizens signed the petition expressing their willingness to share the cost of the link up with the larger facilities offered by the Union Library program.

Dill Wins Bell Cup
The Bell cup schedule on the Enderby ice was completed last week, with the rink of E. B. Dill the winners. This rink won six games out of the seven played. Skip E. B. Dill, Dr. Helem, third, M. M. McKay, second.

Vernon Wins League--Cannot Go Further

Locals Abandon All Hope of Participating in Coy Cup Hunt And in the Junior Playdowns

FISH AND GAME RESOLUTIONS ARE BEING CONSIDERED

Kokanee Situation In Interior Is Under Investigation, Local Club Advised

"The general question of kokanee in Interior lakes is at the present time being investigated and it is hoped that sufficient information will be obtained during the coming season to permit of some definite action being taken, one way or the other, regarding this matter," states Major J. A. Motherwell, Chief Supervisor of Fisheries for B.C.

This information is contained in a letter sent to Harold Cochrane, Secretary of the Vernon and District Fish and Game Protective Association, and is the outcome of a resolution passed at the annual meeting asking for action towards the protection of this species from commercial depredations and at the same time allowing private individuals to secure supplies for their own use.

"There appear to be two points of view," Major Motherwell declares, "one is that residents in the vicinity of Interior lakes be permitted to take these kokanee for commercial purposes or for their own use by means of nets."

"The other point of view is that it would be a mistake to permit kokanee to be taken commercially when they are so valuable from the standpoint of food for the sport varieties."

Traps for the purpose of reducing the number of coarse fish in Okanagan, Woods, Duck, and Otter lakes is advisable, he declares, and this matter is being taken up with the Dominion department with a view to taking the desired action.

A resolution was also passed at the local club's annual meeting asking for the year-round operation of the Summerland hatchery.

No definite action, however, is promised on this matter, Major Motherwell declaring that the remarks made are "very interesting" and the matter has been placed before the department.

MERRITT DEFEATS PIONEER
MERRITT, B.C., Feb. 25.—Merritt's Intermediate hockey team eliminated the Pioneer puck-chasers here on Monday night, 3-1, in the second and final game of the first round of the provincial playdowns.

The two goal advantage gave the

Nicola men a six goal lead and the right to advance into the finals against Rossland for the Coy Cup. The Merritt team was prepared to meet Vernon in the semi-finals on Thursday, but will travel instead to the Kootenay centre, as the Okanagan winners have withdrawn.

Seven Times League Winners And Five Times Cup Winners Now Forced Out

For the first time in its history after having won the Okanagan Valley League championship, the Vernon Intermediate hockey team will not proceed towards the provincial semi-finals and finals in quest of the Coy Cup.

Vernon teams have seven times won the league title and on five occasions have gone through all opposition to win the cup and to pile up by far the most impressive record in this class of hockey of any aggregation in British Columbia.

The situation was brought to a head this week when the Merritt team won their two game series with Pioneer and earned the right to proceed in the provincial playdowns.

The original schedule drawn up by officials of the B.C.A.H.A. called for home and home games between the winners of the Okanagan and the Nicola Valley-Pioneer teams, with the finals at the home of the Rossland-Grand Forks victors.

However, it was suggested by E. G. Sherwood to the governing body, that in order to cut expenses, and seeing the finals were in the Kootenay area, the winning players should travel east. This was agreed to, and because of Vernon's outdoor rink, Armstrong was suggested as the most suitable place for the series, as there is a better rink there than at either Merritt or this city.

The revised schedule did not, however, suit the Merritt officials who demanded one game on their own ice and the other in the Okanagan, so the B.C.A.H.A. has accordingly ordered Vernon to play at the Nicola centre, the first game to be played tonight, Thursday, with the second here on Saturday.

Faced with a train trip to Merritt owing to the blocked condition of the roads at an expense of not less than \$200, and if the team won the series, another bill for at least \$500 to Rossland, Vernon officials have been forced to cancel the series. Repeated efforts to alter the Merritt and the B.C.A.H.A. attitude have failed, even when, as was pointed out, the cheapest thing to do was to have the western teams travel east, thus cutting expenses in half.

Unless some speedy alteration is made in the schedule Merritt will travel to Rossland for the finals on March 3 and 5, leaving the local players without a chance to defend their provincial championship and the Coy Cup.

Local hockey enthusiasts will not, according to present arrangements, have an opportunity to see the Vernon juniors in action against the Vancouver team, in provincial semi-finals, as was mooted last week. A guarantee of some \$150 has been demanded and in the face of this all arrangements have been dropped.

KELOWNA GOLF CLUB ENJOYED SUCCESSFUL SEASON DURING 1935

KELOWNA, B.C., Feb. 25.—During the past year the Kelowna Golf Club enjoyed the most successful season since 1931, it was announced at the annual meeting on Thursday evening last in the Royal Alton Hotel. A surplus of \$192 was shown which is in marked contrast to the deficits of the four previous years.

Officers elected for the coming season are as follows: President, R. B. Staples; Vice-President, A. Weddell; Committee: D. E. Oliver, H. A. Willis, J. J. Ladd and Drs. A. Underhill and M. P. Thorpe. E. W. Barton was elected Captain.

Star Enjoys Canadian Winter Sports

Nancy Carroll, red-headed Hollywood star, had her first taste of Canadian winter sports at Quebec recently. "I have skated on artificial ice in Hollywood," she said, "but skiing, tobogganing, and dog sled riding are all new experiences." The first ski-lessons turned her into an enthusiast for breakfast off the sideboard.

Vernon Hockey Squad Beats Flying Frenchmen to Take Valley Title Seventh Time

Lumby Boys Fail To Show Speed And Fire of Earlier Part of Season

When Vernon's fighting Intermediate pucksters skated off the ice here on Friday night last, it was with the comforting knowledge that they had won the Okanagan Valley League championship for the seventh time, and were on their way for the sixth time towards province-wide competition for the Coy Cup.

Lumby's Flying Frenchmen were eliminated by their arch rivals 3-1 in the second play-off game, after having been defeated on their home ice Thursday night by a 5-3 verdict.

Losing the initial encounter on their own ice was tough luck for the Frenchmen, while in the Vernon game they never showed the speed or fire which had made them league leaders all during the year.

Their forwards could not seem to "bore in" behind the local defense and their shots, with several outstanding exceptions, were much too far out to provide a real menace. The brunt of the work fell on the defense of Genier, Derry, and goal-keeper Sonny Ingls, while, as in all games, the attackers showed nice back-checking to provide a healthy opposition for Vernon forwards.

However, Lumby has practically all young and coming players, good for several seasons more of this great winter sport, and with added experience should prove supreme in several seasons to come.

Accurate stick handling, shooting, and skating were impossible for the greater part of the game Friday night. At the scheduled time the snow was pelted in large wet flakes, piling up so thick that fifteen minute periods were necessary and before one side of the rink was cleared the other had about an inch covering the surface. At times the snow gathered in front of the puck-carriers' sticks and in several instances was lost in the wet mass.

Dick Murray, scoring hero of the first encounter, with three markers, denied the Lumby twine and the hopes of the Frenchmen's supporters at the same time just over one minute from the start of play on Friday night. He snared the puck in centre ice, skated down, shot, gathered the rebound and gave Ingls no chance.

With the snow settling ever deeper, play throughout the remainder of the period was hampered severely. Both teams, however, were out for goals and play ranged back and forth with "Eggle" Hale and Ingls doing stellar work. The weather man evidently decided to give the players a "break" in the second and let up on the snow. Vernon heightened its advantage soon after the start on a nice piece of combination featuring Bill Gray and Jack Willis.

These two teamed up, Gray slipping a pass to his young partner, receiving it again, to circle for a skillfully executed goal.

Almost immediately after Norris led another attack with Green and Gray, resulting in a face-off right in front of the goal. Law, however, scooped the rubber from the danger zone by a daring play and sensational work by Ingls stayed off seemingly sure tallies.

Lumby secured its lone count of the game midway through the period when a hard shot from Copp was deflected off Louie Norris' stick, between Hale's legs, and into the twine.

Emory Green nearly put the Vernonites another goal up when he counted one from close in, but referee Bill Sigalet disallowed it as he was in the goal crease at the time.

The final goal of the game, to put the victory away on a safe basis for the locals, came in the third from "Slick" Langstaff with the second assist of the evening for Jack Willis.

The first severe casualty of the league season marked the game

Two "Fluke" Goals From Educated Stick of Louie Norris Prove Valuable

Two "fluke" goals from the educated stick of Louie Norris, as crafty a player as ever donned a Vernon uniform, were responsible for the local Intermediate 5-3 win over Lumby's Flying Frenchmen at their home ice in the initial play-off game of the Okanagan Valley League on Thursday night last.

Down three goals to two with less than ten minutes to play, Norris sent his team's stock soaring with two beautiful shots, one after another, from behind his own blue line, straight as the proverbial arrow into the pipes behind young "Sonny" Ingls.

The first shot came as a complete surprise to every rinksider at the boards. The puck sailed through the air, up among the lights, slapped the ice less than two yards from the goal and slid straight in.

The first intimation that Ingls had of the shot came when he heard the puck hit the ice. He looked around, expecting to find the rubber off in a corner, but finally saw it nestling behind him.

This was the toughest kind of luck for the Lumby netminder as he had played a bang-up game throughout and the goal was absolutely no fault of his, merely an extremely lucky shot, hard and accurately propelled through the air.

The second was an exact repetition of Norris' previous effort, except that Ingls made a vain attempt to step it. This second tally sent Vernon one marker up at 4-3 to ensure a victory.

Exhilarating as these efforts were to the Vernon players and supporters, the final thrill of the contest was added by Dick Murray, who, snaring a loose puck, and swerving past an opposing stick, twisted around Ingls, to bang in the final score of the game.

Major sniping honors of the evening were voted unanimously to Murray, in addition to his last effort he boosted the team's total on two previous occasions, the first time to even the count early in the second period, and about four minutes later he put the locals into their first lead of the game.

Auspices were not very favorable at the start of the contest as the snow was pelted down and about the scheduled time the snow lay deep over most of the surface.

Accurate stick handling was impossible, snow piled up on the puck, but the worst of the flakes soon after the first period thinned out considerably. With light conditions not any too good the hardest part of the evening's work fell on the goal-tenders. Just 45 seconds after referee Bill Langstaff dropped the first face-off of the game, the eager Lumby forwards swerved down, caught Hoskins in a blind spot and scored.

Close checking featured the Lumby play throughout the con-

somehat when a sharp skate and struck Lumby's defenseman Derry on the left side of the neck, making a shallow but painful cut which necessitated medical treatment.

Goal Summary
1st period: Vernon, Murray, 1:20. No penalties.
2nd period: Vernon, Gray from Willis, 4:50; Lumby, Copp, 5:50. Penalties, Lumby, Genier.
3rd period: No goals, no penalties.
4th period: Vernon, Langstaff, 2:45. No penalties.

Referee, W. Sigalet, Lumby.

The Teams
Vernon: Hale, Gray, Norris, Langstaff, J. Willis, O'Keefe, Murray, Sparrow, Green, Grandbola.

Lumby: Ingls, Genier, Catt, Ward, Hill, Christien, N. Derry, Quesnel, D. Derry, Wagner, Law.

Badminton Winners For Central B.C.

Following are the new central British Columbia badminton titleholders:

Men's Singles: Harry Webb, Kelowna.

Ladies' Singles: Miss Margaret Taylor, Kelowna.

Men's Doubles: Solly and Fudge, Summerland.

Ladies' Doubles: Miss Taylor and Miss Pease, Kelowna.

Mixed Doubles: Solly, Summerland, and Miss Jean Partington, Vancouver.

Junior Boys' Singles: Bobby Penrose, Penticton.

Junior Girls' Singles: Miss A. Thompson, Kelowna.

Veterans' Doubles: Butler and Hayes, Kelowna.

VOLLEYBALL RACE CONTINUING
The Woodpeckers and the Hawks are leading the Vernon Volleyball League race with eight points each, followed by the Eagles with six points, and the Falcons with two.

However, the two leading teams have played seven and six games respectively, the Eagles six, and the Falcons seven.

During the week from February 17 to 20, all games were postponed, and Secretary James Apey announces that they will commence Monday next.

Senior Men Enter Second Game With Revelstoke With A One Point Lead

Three Vernon basketball teams, the Senior B men and Intermediate A ladies and men, are at present advancing towards finals and semi-finals in their respective divisions in the Interior playoffs.

The Intermediate teams are now in the second round of their contest, the ladies and men having defeated Armstrong and Rutland, and in Vernon on Monday night, in the Scout Hall, played the first of two games with Kamloops aggregations.

The local misses will battle at Kamloops on Saturday night next on an even basis with their main line opponents, each team having obtained 22 points here Monday. The Vernonites were led by Lorraine McEwen with 11 points and Annie Openshaw with 6, while Klipp was the standout sniper for the visiting lasses with 10. Marion Edgar, formerly of Vernon, playing for Kamloops, turned in a nice performance, securing 8 markers. The half-time score found the locals leading 10-9.

The Vernon Intermediate A men test, with the locals applying scoring pressure through the first and last period, the Frenchmen were forced on the defensive, leaving practically no openings for wide, fast play.

Lumby's second goal of the game in the middle period was made on one of Christien's characteristic rushes, with the pass being laid down by John Genier, resourceful defenseman. Their third and last goal came after ten minutes of play in the final and was the result of a nice solo effort by Bob Derry.

Goal Summary
1st period: Lumby, Quesnel, 45 sec.
2nd period: Vernon, Murray from Sparrow, 7:15; Vernon, Murray, 4:35; Lumby, Christien from Genier, 7:40.
3rd period: Lumby, B. Derry, 9:35; Vernon, Norris, 3:35; Vernon, Norris, 2:55; Vernon, Murray from Sparrow, 1:05.

Penalties: 1st and 2nd periods, none.
3rd period, Lumby, B. Derry.

The Teams
Vernon: Hoskins, Gray, Norris, Langstaff, J. Willis, O'Keefe, Murray, Sparrow, Cloughdon, Grandbola.

Lumby: Ingls, Genier, Catt, Law, Ward, Christien, N. Derry, Quesnel, B. Derry, Wagner.

Referee: Wm. Langstaff.

MARGARET TAYLOR ANNEXES CENTRAL BADMINTON CROWN

Harry Webb Captures Men's Singles In Stirring Battle With Nick Solly

KELOWNA, B.C., Feb. 25.—Miss Margaret Taylor, of this city, present Dominion and B.C. ladies' singles champion, retained her Central Ladies' badminton title here on Thursday afternoon last to provide the focal point of interest in the Central British Columbia Badminton championships.

To defend her crown, Miss Taylor stroked her way to an impressive victory over Miss Vess-O'Shea, Vancouver star, by scores of 11-3, 11-3. By her smashing win, Miss Taylor clearly demonstrated why she holds the premier position in women's badminton rank in the Dominion. Paired with Miss Jocelyn Pease, the Kelowna expert retained her ladies' doubles title by defeating the strong Coast pair of Miss O'Shea and Miss Jean Partington, 15-2, 15-6.

In the men's singles Harry Webb, Kelowna, beat Nick Solly, of Summerland, and formerly of Vernon, in a hard three-set match, 4-15, 17-16, 15-6. Solly and George Fudge, however, combined to win from Webb and Saunders. In the mixed doubles the superior team work of Solly and Miss Jean Partington, Vancouver, gave them a decided edge over Saunders and Miss Taylor.

The handicap events were well contested and attracted a large entry list. Gene Homer-Dixon, of Vernon, paired with Miss Partington in the mixed doubles to defeat Lupton and Miss C. Roberts, Kelowna pair.

Men's singles: J. A. Brown, Westbank, beat H. O. Paynter, Westbank. Ladies' singles: Miss N. Siliel beat Miss M. Stubbs, Kelowna. Ladies' doubles: Miss J. Smith and Miss M. Elmore, Kelowna, beat Mrs. A. McLymont and Miss Hay, Okanagan Mission. Men's doubles: J. Brown and H. Paynter, Westbank, beat A. P. Hayes and Darby Hayes, Kelowna.

LOCAL SENIORS ARE DEFEATED BY HOUSE OF DAVID ARTISTS

Shooting Ability Is Chief Feature of Bearded Teams' Exhibition Here Last Week

Featured by wonderful ability to propel a basketball from mid-floor straight into the basket, the touring House of David hoopers exhibited in the Scout Hall on Thursday night last, winning from the local Senior B men 50-55.

As in the contest with the Harlem Globe-Trotters several weeks ago, the locals simply were not in the picture. Aid by some inspired work by George Carter, with 14 points, a neat 12 by Howard Urquhart, and 10 by Ronnie Dean, they came without four points of a tie when the final whistle blew.

That the bearded laddies were not out to pile up points was abundantly evident, the half-time score being only 16-15 in their favor. With seven minutes left to play Dean passed to Carter who scored, leaving the Vernonites only one point down at 38-37. A minute later he repeated the effort and a pass to Dean brought the team up to a tie with the visiting House of Davids, the barbers' nightmare, at 43 all.

Vernon Seniors: Cochrane, 2; Urquhart, 12; Gray, 6; Dean, 10; Willis, 4; Carter, 14; French, 7; Neill, Total, 55.

House of David: Johnston, 12; Martin, Curtis, 12; Beelman, 12; Kebza, 14; Curtis, 9. Total, 59.

Three Vernon Hoopster Teams Carry on Into the Semi-finals

will carry a 7-point lead into their second game with Kamloops this week end; final score in the first contest being 21-14. Inability of both teams to register around the hoop was the chief weakness, half-time finding the score at 10-10.

Carrying a slim one-point lead into the second game, the Vernon Senior men will meet Revelstoke here in the Scout Hall tomorrow night, Friday, and the winner will then advance into the valley finals against either Kelowna or Penticton.

In the initial clash clash at the hall on Saturday night last, the Vernon men finally emerged victorious, 25-24. The game was close all the way, with Revelstoke leading 18-14 at the interval.

Jack Willis was the star of the evening, netting an even 12 points. This was the third game he had played in three successive nights, as on Thursday night he had aided the hockey team to victory over Lumby in his regular forward berth.

In Friday night's semi-final, the Vernon Seniors are decided favorites to take the invaders and provided they accomplish the expected, will be ready to battle southern valley squads. With four straight exhibition victories over Kelowna the Penticton Seniors are prime favorites to defeat Kelowna's Famous Players in the two game series on Friday and Saturday of this week.

The Rossland Senior men's three wins over valley squads on their recent tour has made them the "Kootenay threat" in Interior finals this season, which will be played about March 14 in that district.

The Teams
Vernon Intermediate A men: Rodman, 6; Howie, Neill, Perrett, 4; Ball, 16, 4; Nyuenis, 3; Denison, Dent, Total, 17.

Kamloops Intermediate A men: Horne, 6; McClint, 2; MacEwen, Ross, 2; New, 4; Walsh, Donding, Total, 14.

Vernon Intermediate girls: McDonald, 4; McEwen, 11; Van Damme, 4; Downing, 1; Danielson, Openshaw, 6; Bradley, Arnold, Total, 22.

Kamloops Intermediate girls: Embury, Edgar, 8; Allen, 1; Hughes, Klipp, 10; Downey, 1; Corbin, Johnston, 10; Cochrane, 2. Total, 22.

Vernon Senior B men: Dean, 2; Carter, 1; Willis, 12; Neill, French, 7; Willis, 4; Cochrane, Gray, Urquhart, 6. Total, 25.

Revelstoke Senior B men: Bell, Meany, 5; Gormmett, Chatter, 4; Prad, 14, 5; Webster, 10; Henderson, Total, 21.

MARA BADMINTON PLAYERS DEFEAT GRINDROD TEAM

MARA, B.C., Feb. 24.—The Grindrod badminton team came to Mara last Saturday evening to compete with the Mara A team for the silver cup finals. Quite an exciting match, resulted in a score of 8-3 in favor of Mara.

Jules Callens returned to his home here last Saturday, after spending several days in Kamloops where he received medical attention.

Miss Kathleen Gray spent last week end in Mara visiting her mother, Mrs. K. Gray, returning to Vernon last Monday.

Miss Alice Macready, of Kelowna, spent last week-end in Mara, the guest of her parents, Mr. and Mrs. J. L. Macready.

Philip and Phyllis Witala went to Vernon last Saturday, where they spent the day visiting their sister, Mrs. E. Foote, returning home on the evening train.

Miss Doris Waby, of Enderby, spent last week end here visiting Miss Madge Robertson.

Mrs. E. Foote returned to her home in Vernon last Thursday after spending the past two weeks visiting her parents, Mr. and Mrs. J. Robertson.

FRASER VALLEY UNION LIBRARY IS SUCCESSFUL

Board Complimented On Efficient Manner In Which Operations Are Conducted

The second annual meeting of the board of management of the Fraser Valley Union Library was held in Murraville on Thursday afternoon, February 6. Noel Booth, retiring chairman, complimented the board and the staff on the efficient manner in which the library had been administered during the first full calendar year of its operation as a tax-supported public library; and he extended best wishes to the incoming board for success in maintaining and bettering an educational institution which was of so great importance to the community at large. There had naturally been discussions from various quarters where the impact of the library tax, small as it was, did not meet with a welcome during times of financial stress, but on the whole the library was steadily coming to occupy an accepted place in the life of the people as an indispensable institution in any progressive community.

The chairman also referred to the new union library districts about to be established in other parts of the province, patterned after the Fraser Valley Union Library; and he enunciated it as a civic obligation of residents of the valley to maintain and improve the regional library, not merely as a means of providing library service, but also as a model system which furnished the only known means whereby indispensable library service could be provided for very much the greater part of this province, as of other provinces in the Dominion.

The treasurer's report, presenting the auditor's statement for 1935, showed the library to be in a sound financial position, with the one warning that no provision had been made for depreciation and replacement of the book-van. This has been taken care of in the budget for 1936, which includes an item for a new truck chassis.

Among statistics included in the librarian's report are the following: Book circulation for 1935, 224,383 volumes, distributed through 125 different library agencies scattered over the 1500 square miles from Hope to the sea. Of this circulation, 73,211 books were non-fiction; 54,900 were children's books. The library had 15,065 active members at the close of the year, an increase of more than 1,000 since June 30, 1935, when re-registration of old members was formally completed. Of total membership 5,387 were children. Total book-stock on December 31, 1935, was 25,153 volumes, a net increase during the year of 1,539, allowing in full for losses and discards. Children's books numbered 6,880. Fifty-three magazines and periodicals were currently subscribed to and circulated through nine main branches. Special requests for books, handled through head-quarters, amounted to 9,455. Funds expended for purchase of new books, \$2,143.78; for periodicals, \$198.18; for binding and repair, \$700.50.

The budget for 1936 is based on a tax of 35 cents per capita, which is the same as in 1935, and five cents less than the tax to be levied in the new library districts. The rural school district, which had to be assessed early last year, were taxed on a 40-cent basis, for which adjustment will be made in the following year. The amount budgeted for purchase of new books in 1936 is \$200 more than the amount spent for this purpose last year; and it is fully expected that this item will be considerably increased again in 1937, when the amount required for annual depreciation of the book-van will be very much less than the very heavy inroad on 1936 funds necessitated by initial replacement of the truck taken over by the new administration in October, 1934.—Chilliwack Progress.

RICHARD TAUBER'S FINE TENOR VOICE THRILLS THOUSANDS OF PEOPLE

Star Will Be Heard To Advantage In His Latest Picture "Heart's Desire"

Richard Tauber's magnificent tenor voice, which has thrilled thousands in concerts both in Europe and the United States, will be heard to advantage in his latest film "Heart's Desire," coming to the Empress Theatre on Monday and Tuesday, March 2 and 3. This picture has a much more powerful and human story than "Blossom Time," and has a modern background with modern thought and feeling. Tauber plays the role of Josef Seldner, romantic Viennese singer who is persuaded against his will to come to London and sing in a new opera.

Another feature on this same program is "Wings Over Ethiopia," a full-length picture actually made at the location of many of the battle fronts of the present conflict.

Family Fued Rages Over Biography

Because of the revelations in her biography, "Nijinsky" a narrative of her allegedly insane husband, who is now in a Swiss sanatorium, Mme. Romola Nijinsky, shown here, is threatened with suit by her daughter, Kyra, and her sister-in-law, Bronislawa Nijinsky.

Isolation of New Vitamin Is Very Important News to Those Interested in Health

By Alice Stevens

A new vitamin has been isolated.

While this statement may not rock thrones nor even cause a flutter in the stock markets, it is an announcement of great importance to all those who are interested in keeping their bodies in proper health.

Scientists at Columbia University have isolated this vitamin recently and it has been named Vitamin H. It resembles vitamin A and G in milk and is necessary for proper health and growth.

Since laboratory animals deprived of vitamin H are reported to have lost their hair and to have suffered from serious skin diseases, the vitamin H derived from a diet liberally supplied with milk may be shown to have a favorable effect upon these important attributes of beauty.

So now, there's a new vitamin to be considered in meal planning. While vitamins have been in foods since the beginning of time, it is only during the last century that vitamins have been so-called. At first there were only Fat-soluble A and Water-soluble B to be studied. Later vitamin C which prevents scurvy was isolated. This was followed a few years later by the announcement of another vitamin, called vitamin D which prevents rickets. Next vitamin E appeared and then to make the situation really complicated, it was found that vitamin B was made up of two different vitamins. These have been named Vitamin F and G. Some scientists call them Vitamin B1 and B2.

Vitamin H appears now. We begin to wonder when vitamin Z will be announced. Will it be during our time? What will the next one after Vitamin Z be called?

Potatoes Versus Oranges

Several other new facts have been established by recent investigations. None of them are quite so startling or as far-reaching as the vitamin H announcement.

A new and previously unrecognized quality of milk has been discovered. Recently completed investigations have revealed that one of the proteins of milk, the lactalbumin, increases the value of the rickets-preventing vitamin D.

Methods used to determine the strength of vitamins have changed. A set of experiments to study the vitamin C content of vegetables has made use of the new and old method, using one as a check on the other. It used to take thirty days for all these experiments with guinea pigs but now less than an hour is needed.

Refrigeration retards a loss of vitamin C in vegetables that would take place if vegetables were held at ordinary temperatures after harvesting.

Contrary to the general belief, the cooking of vegetables in an open kettle does not destroy a large portion of vitamin C. This is quite different from the usual teaching.

The public is constantly reminded how strong in vitamin C are citrus fruits and tomato juice, but few persons are aware that potatoes are just as rich in this vitamin as tomato juice. Peppers, horseradish, parsley, turnip greens and spinach are more powerful sources of this vitamin than is orange juice. Cabbage, cress, peas, parsnips and turnips have about the same amount of this vitamin as has orange juice.

The value of raw potatoes in cases of scurvy is recognized in the Far North. In the old mining days, raw potatoes were considered as precious as gold nuggets. The raw potato was grated and the pulp was given to the scurvy patient. Recovery was usually very rapid.

International Women

Exemplifying the spirit of tolerance and good-will that recognizes no national barrier, an international radio hook-up featured the celebration of

"International Night" by members of the International Federation of Business and Professional Women's Clubs. Miss Lena Madson Phillips, President of the International Federation, spoke from New York and was followed by Miss C. O. Williams, President of the United States Federation. Miss Mary C. Mount, President of the Canadian Federation, spoke from Toronto, and Miss Caroline Haslett, President of the British Club, gave her greetings from London, England.

Miss Haslett ranks as one of the most distinguished engineers of Great Britain. She is director of the Electrical Association for women and editor of several engineering publications. For her prowess in her profession, she was made a Dame Commander of the British Empire in 1931.

Winter Sounds

There's a crackling of good cedar in my hard-worked kitchen range, There's an imp inside my kettle Whistling tunes both sweet and strange. There are several ooms of power Emanating from the "grid" Of potatoes all a-bubble, Pushing up my saucepan lid. There's a priceless little crooner Underneath the kitchen grate; Could you hear our kitten Tabby, You'd agree her purr was great. There's a roar among the tree-tops Of a wind that's travelled far, O'er the icy, barren spaces, (Thank the Lord, we're where we are.) There's a pleasant tinkle jangle, As the sheep go on their way, Single file, with bells a-dangle, To the troughs to get their hay. Up the mountain run the echoes Multiplied into a choir, As the axes ring the death-knell, Of a proud tree for our fire.

Now the dog is barking wildly, Now the cutter's at the door, Jabber, jabber, children's chatter, Time for rhyming is no more.

—Valleyette.

FALKLAND WOMEN'S MISSIONARY SOCIETY HEARS FINE ADDRESS

FALKLAND, B.C., Feb. 24.—At the monthly meeting of the Women's Missionary Society held on Thursday afternoon the guest was Mrs. J. Williams, of Selkirk, who gave an interesting address on "The Kingdom of God Movement." Following the meeting refreshments were served at the home of Mrs. J. H. Phillips. The W.M.S. will observe the World Day of Prayer on Friday by holding a special meeting.

Quite a number of young people attended the dance held at Glenora on Friday evening last and the local orchestra supplied the music.

Miss Queenie Phillips spent the week end at her home here.

L. King was a Falkland visitor for several days last week.

Miss Laura Bailey, of Winfield, is a visitor here this week.

McLEAN & FITZPATRICK TO CONTINUE AT OLIVER

OLIVER, B.C., Feb. 22.—The packing house firm of McLean & Fitzpatrick, which has operated in Oliver for the last few years, will carry on here during the coming season, according to an announcement from the head office in Kelowna.

When the Occidental Fruit Company purchased the Apex packing house, used last year by McLean & Fitzpatrick, rumors were circulated that the latter company was pulling out of Oliver. Company officials deny the rumor, and they are now making arrangements for packing house facilities in Oliver.

CENTRE WOMEN'S INSTITUTE NAMES COMMITTEE HEADS

OKANAGAN CENTRE, B.C., Feb. 24.—The February meeting of the Women's Institute was held in the Hall on Thursday last with the President, Mrs. Pixton, in the chair. The following conveners of committees were nominated for the year 1936: Education, Mrs. Hare; Legislation and Immigration, Mrs. Hunter; Institute Method, Mrs. Bernau; League of Nations Publicity, Mrs. Caesar; Social Committee, Mrs. Ross and Mrs. Reeve; Visiting, Miss MacLennan and Miss Wentworth; Library, Mrs. Cheesman and Mrs. Carter; Agriculture, Mrs. Parker.

Various subjects of interest came up for discussion during the arrangement of the program for 1936. It is proposed to have lectures on education, gardening, weaving and quilt-making, and speakers who have been asked to address the Institute include Mr. Bearst, of Vernon, Mr. Hornby, of Summerland; and Miss Topham Brown, of Vernon.

Mrs. Pixton, with a few introductory remarks on the inauguration of the Institute in the Centre, introduced the speaker of the afternoon, Mrs. Burnau. Mrs. Burnau then gave an interesting resume of the most interesting work taken up by the Centre Institute from 1921 to the present time.

Tea was then served by Mrs. Harrop and Mrs. Hunter. A short article on "England's Part in the League, With Regard to The Ethiopian Question," was read by Mrs. Macfarlane.

WEST-SIDE ROAD FORCED INTO USE

EWING'S LANDING, B.C., Feb. 22.—Mrs. W. P. Bristowe is in Vernon, making an extended visit with her mother, Mrs. H. G. Wakefield.

Mr. and Mrs. Bernard Wood visited Vernon for a couple of days during the week.

The severe cold caused ice to form on the west shore of the lake for two or three days last week, which extended for some distance out. Skating was indulged in by some venturesome spirits, but parents, however, kept their children off the ice, realizing the treacherous nature of the ice surface.

Owing to the Westbank-Kelowna ferry being laid up on account of ice conditions, motorists have been obliged to use the Westside road to get to Vernon. Mr. Hickman, of Vancouver, drove up the week-end of the 21st. He had good going all the way until he came to what is known as "Richards chuk." He had to "phone to a Vernon garage for chains before he could complete the trip.

"NIGHT AT THE OPERA" LATEST AND FUNNIEST MARX BROTHERS FILM

Groucho, Chico, and Harpo Pack Picture With Laughs, Thrills, and Gags

Heralded as the funniest picture to come out of Hollywood in years, "A Night at the Opera" comes on Friday and Saturday, February 28 and 29, at the Empress Theatre with the world-renowned Marx Brothers, Groucho, Chico and Harpo, cast in three of the most uproarious characterizations ever devised for any trio of comics either on stage or screen.

The new picture represents a departure for the celebrated Kings of Laughter inasmuch as it does not depend alone on madcap antics and insane gags but tells a straight, credible story enlivened by musical interludes and an engaging romance between Kitty Carlisle, heroine of several Bing Crosby musicals, and Allan Jones.

The principal locales of "A Night at the Opera" are Italy, an ocean liner and a New York opera house, with Groucho, Chico and Harpo, constituting themselves managers.

TRINITY VALLEY SCHOOL CLOSED IN SEVERE WEATHER

TRINITY VALLEY, B.C., Feb. 22.—School has been closed here for the worst of the cold spell, as the children all had to travel by horses and open cutters.

The lowest of our cold temperatures was 32 degrees below zero, which is several degrees warmer than some of the neighboring districts.

Harvey Worth and George Bailey have cleared the road for car traffic once more, snow-plowing all the roads this last two or three days.

The usual church service was put off, as was also at least one whist drive. Now that the thermometers are beginning to look up, the district will be able to foregather again.

CHANGES FORECAST IN POLICIES OF ARMSTRONG CO-OP

Encouraging Reports Presented At Annual Meeting—To Have Drive For Members

ARMSTRONG, B.C., Feb. 24.—The directors of the Armstrong Co-operative Society presented an encouraging report to the shareholders at the annual meeting held in the City Hall on Tuesday. A number of resolutions incorporated in the report gave rise to considerable discussion and tend towards important changes in the policies of the society.

The first of these had to do with a drive for wider membership among the patrons of the store, in order that full advantage may be taken of the co-operative nature of the business. At the present time the society is not recognized as a co-operative trading organization under the federal interpretation of that term of taxation purposes; and in order to receive full recognition and consequent advantages as regards taxes, it is necessary that eighty per cent of the society's business be transacted among its own membership.

In order to encourage every regular patron to become a member of the society the present shareholders adopted a resolution presented by the directors, and arising from plans outlined at the last semi-annual meeting, whereby the price of shares shall be reduced from ten dollars to one dollar. Existing certificates will be replaced by new ones, each ten dollar share giving way to ten shares at one dollar each. Out of 245 non-members trading with the society during the past year, it was pointed out by the secretary that 166 have sufficient trade rebate claims to their credit to become members without further outlay, while in the case of 69 others, their rebate credits lack but \$16 of being sufficient to include them all as members.

Having decided to reduce the price of shares, the shareholders also resolved to pay trade rebates now due in the form of one dollar shares to all who wish to become members, such membership dating from January 1, 1938. Those whose rebate credit is at present insufficient to pay for a membership may leave their claims on deposit until such time as they amount to the price of a share. In this way no person is called upon to make a cash outlay for membership. Dating also from January 1, and effective at the end of this half year, rebates will be allowed to members only.

In the past, members have been careless or indifferent as to the claiming of trade rebates, only 89 out of a possible membership of 177 having put in their claims for the past half year. As the honoring of these claims is the only check on the question as to what portion of the business is done within the membership of the society, it is important that these claims be presented, in order that necessary data may be available from which to make report to the federal authorities.

At the afternoon session, another resolution gave rise to considerable discussion. It was proposed that the society take over the men's furnishing business at present conducted in the society's building by W. F. Youngblood. There was a marked difference of opinion on the part of the shareholders present, and after full discussion, on being submitted to a vote it was found that the meeting favored the proposition by a very small majority.

Balloting for a board of directors resulted in the election of J. C. Henson, Willis Hunter, H. Page Brown, V. T. N. Pellett, and Robert L. E. Tripp was appointed auditor for 1938.

The meeting instructed the new board of directors to take steps toward the organization of a Women's Guild in connection with the society, which shall co-operate particularly along the social side of the society's activities, and which shall be represented by at least one member on the board of directors of the society.

Resolutions of confidence in the manager and staff of the store were unanimously passed by the meeting, special mention being made of the foresight of the manager in preventing a serious outbreak of fire at the store in the opening days of the present cold spell.

Hitler at Celebration of First Nazi State

Replying to the straight-arm salute of his followers, Herr Hitler, chancellor of Germany, arrives at the Aviation hall, Detmold, Lippe, to address a celebration meeting in commemoration of the third anniversary of the historic Diet elections of the state of Lippe, when it became the first Nazi state in Germany

WEST KOOTENAY POWER THROUGH TO OLIVER AREA

High Tension Line From Bonnington Falls Rebuilt—Penticton Served Next Week

OLIVER, B.C., Feb. 22.—Electric power came through from Bonnington Falls today over the West Kootenay Power Company's rebuilt high tension line. Oliver was first to get the current; Penticton and points north will be hooked up early next week.

While waiting for repairing the line auxiliary service was supplied from the West Canadian Hydro Company's plant at Shuswap Falls.

All the poles are up in the seventeen and a half miles of line which collapsed January 9. Work has been completed on the damaged section east of Oliver, and linemen are now stringing the wires from Oliver west toward Penticton. It is expected the job will be completed and Penticton and other towns in the Similkameen hooked up about the first of March.

SALMON VALLEY YOUNG PEOPLE'S ELECT OFFICERS

Francis Lefroy Named President Of Society For the Coming Year

SALMON VALLEY, B.C., Feb. 24.—A meeting of the Young People's Society at Heywood's Corner School house last Wednesday evening, Feb. 19, at which an election of officers took place, as follows: Honorary President, Rev. W. J. Selder; President, Francis F. Lefroy; Vice-President, Miss M. M. Kohut; Secretary, Miss Amy Eichenard; Treasurer, Miss Nancie G. Heywood; Conveners of Committees: Christian Fellowship, Douglas Heywood; Christian Citizenship, Russell C. Freeze; Christian Missions, Miss Nora Duthie; Social and Recreational, Mrs. Leo Materl.

After regular business of the meeting a program of community singing, games and refreshments, which was enjoyed by all present, followed.

It is hoped that Laurie King will give an address at the Y.P.S. to be held on Thursday evening, Feb. 27, at Heywood's Corner School.

Miss M. M. Kohut spent the week end at her home at Hukker.

Rev. W. J. Selder, of Falkland, was a visitor at Salmon Arm on Thursday.

Miss Cora Wyatt and Jim Lancaster, of Armstrong, were visiting H. G. Wyatt at Heywood's Corner on Sunday.

Educational Provision That Should be Made to Meet The Needs of Early Adolescents

Not A Mere Shadow of Courses But Designed To Meet Canadian Conditions

In view of the uncertainty of the school situation in Vernon and the possible introduction of the Junior High School idea, the following outline, given by W. R. Pepper, principal of the Vernon-High School, to the Rotary Club, should prove of interest:

"The first program of studies for Junior High Schools in this province was issued in 1927. It endeavored to express in concrete form the educational provision that should be made to meet the needs of early adolescents. The program was not a mere shadow of courses provided in Junior High schools established in other parts of the world, but was designed to fit Canadian conditions, to perpetuate what is best in our traditions, and, at the same time, make some contribution to Canadian life and education.

Certain changes in the program arising out of the actual experience of educational experts in operating Junior High schools are embodied in the revised syllabus, and steps have been taken towards effecting a better coordination of the Junior High School course, on the one hand with the work of Grades VII and VIII of the Elementary School and on the other hand, with the work of Grade IX of the High School.

Advantages of Junior High Schools
"As some Boards of School Trustees and teachers may not have seen the first issue of the Junior High School program, but may wish to give some thought and study to the question of the advantages of Junior High schools, the purposes of the Junior High School as given in the first edition of the program are reprinted in this issue. They are as follows:

"The provision of a suitable educational environment for children of the early adolescent period, approximately from 12 to 16 years of age. To carry this out involves:

"An enlarged and extended background of experiences. This means that there should be: enriched curricula and courses of study; laboratories, shops, libraries, assembly-halls, gymnasiums; well trained teachers, sympathetic with children of the early adolescent stage; methods of teaching and social control justifiable in the light of what present-day psychology has contributed to our knowledge of the early adolescent.

"Amply provision for common integrating education. The 'constant' subjects have this aim. More particularly English and the Social Studies give that common background of ideas and experience necessary for the attainment of social solidarity.

"Abundant facilities for the progressive discovery and experimental direction of pupils' interests, aptitudes, and abilities, involving especially: exploratory activities in varied occupational fields; general and survey courses in the major academic fields; flexibility in curriculum organization and administration; individual diagnoses, leading to educational and vocational guidance.

Vocational Training
Adequate provision for individual differences, involving especially: Enriched curricular and extra-curricular offerings; opportunities for gradual curriculum differentiation; flexibility in methods of promotion; provision for varying rates of progress; and vocational training for those who must leave school early.

"Increased opportunities both for the development of leadership and for learning social co-operation and democratic citizenship. This should be effected through an adequate program of extra-curricular activities and participation in such school duties as, under guidance, it may be possible for the pupil to assume.

"To provide, in such matters as curriculum, methods of teaching and social and administrative control, a gradual and less abrupt transition from elementary to secondary education.

"To provide equality of educational opportunity.

"To effect economy of time in education, through provision of the conditions most favorable for learning; and that elimination of waste which should come from the adoption of a reformed and better adjusted curriculum.

"The foregoing represents an ideal. Its complete realization may be impossible in many communities on account of inadequacy of resources. In particular it may be impossible to have the kind of school plant which is described above.

Much may be done, however, by means of expedients, provided that, intellectually, the Junior High School is correctly conceived. The organization of

INTERRUPTION OF FERRY SERVICES HURT PEACHLAND

Mail and Food Supplies From North Held Up For Several Days When Lake Froze

PEACHLAND, B.C., Feb. 23.—Ice on Okanagan lake was thick enough on Wednesday last to give skaters a chance to try their skill. The ice was several inches deep around the C.P.R. wharf and a strip of about twelve feet was safe enough to warrant skating on it in the afternoon. A strong south wind, however, broke up the ice and there was none to be seen on Thursday morning. Calm weather towards the end of the week allowed more ice to be formed but a north wind on Sunday broke this up along the shore.

Local merchants who depend on Kelowna for supplies went short when the ferry was unable to run Friday and Saturday. The mail service was also interrupted and no north mail has been received here since Wednesday night. With a resumption of the ferry service Monday the delayed mail has, however, now arrived.

Heavy snows which have fallen this month have effectively stopped all logging trucks from making their usual runs and work in the woods is at a standstill. The Glen road has not been broken out since the last snows and heavy drifts have been formed in many places along this road.

Local orchardists are suffering more damage from the deer owing to the heavy snowfall. They are seeking the lower levels and feeding on the tender buds for which they have developed an appetite in previous winters.

Small Radio Stolen
E. A. Bishop, of the Crystal Garage, reported the theft of a table model radio to the police on Friday morning. The radio had been left in his garage the night before and when he arrived on Friday morning he found it gone. The thief or thieves had evidently removed a pane of glass from the back window and reached the door bolt, thus gaining easy access to the garage. Tracks into the building had been covered by the three inches of snow which had fallen that night.

More Sports Organizations
Badminton and Basketball Clubs were formed last week and representatives sent from each club to a meeting of the Executive of the Athletic Association which met at the home of the Rev. F. Chilton, on Wednesday evening. A schedule of playing times was arranged, and arrangements made for the financing of the separate clubs. After discussion it was agreed that fifty per cent of the proceeds of games should go to the Athletic Association for upkeep and overhead charges.

The Badminton Club organized on Monday night, and chose G. Garlinge, president; G. Morrison, vice-president; and H. MacNeill, secretary-treasurer. E. Hunt was chosen president of the Basketball Club which met on Tuesday evening, with Miss Honor Vincent, secretary; and Chesel Baker, treasurer. One member of each basketball team is also to be chosen by the separate teams to form the executive along with the principal officers.

TO MILLIONS WHO SHOULD USE BRAN

Testimonies Show ALL-BRAN Corrects Constipation* Gently and Naturally

Since its introduction, some fifteen years ago, Kellogg's ALL-BRAN has been used with beneficial results by millions of people.

Realizing the important relationship between proper diet and health, the Kellogg Company has aimed for some years past in leading university laboratories. These tests show that the continued use of bran is thoroughly satisfactory.

ALL-BRAN supplies soft "bulk" which absorbs water, and gently cleanses the intestinal tract. ALL-BRAN also furnishes vitamin B and iron. Use as a cereal with milk or cream, or cook in delicious recipes.

This tempting cereal may be enjoyed by every normal person. Two tablespoonsful of Kellogg's ALL-BRAN daily are usually sufficient. Consult your doctor if you do not gain relief this way.

Help your family keep well. Serve Kellogg's ALL-BRAN regularly for regularity. Sold by all grocers. Made by Kellogg in London, Ont.

*Constipation due to insufficient "bulk"

VERNON, B.C.

The Week On Parliament Hill

OTTAWA, Feb. 24.—Four major investigations into government affairs are already tentatively tabled as Canada's 18th Parliament session entered its third week after a week of discussion and debates that ran the gamut from liquor smuggling to Olympic hockey competition.

Several important investigations have already been promised by the Liberal government and a fourth, a Senate enquiry into liquor smuggling, has been advocated by Hon. J. J. Hughes, Prince Edward Island.

The extent of the wheat probe has yet to be determined but with the assurance of Minister of Trade, W. O. Euler, that a special committee will be set up to investigate the wheat situation if it is wanted an enquiry is regarded as certain. Opposition leader R. B. Bennett gave Mr. Euler prompt assurance that he would ask for such a committee.

Wheat has been brought to the front by Mr. Bennett's criticism of the operations of the new wheat board which replaced that headed by John I. McFarland, personal friend of Mr. Bennett. While more detailed criticism may be expected from the Opposition leader when he makes formal request for the special committee, Mr. Euler, as government spokesman in the matter, has replied to Mr. Bennett with a comparison of the sales of the old and new boards. It is regarded as possible that the enquiry might be extended to cover operations of both boards, going back to 1930. If such action is taken it is not unlikely that the enquiry might go beyond the committee scope and require a Royal Commission.

Opposition supporters here claim that they see in the Government's proposed coal monopoly investigation the first move toward removing the embargo on Russian coal.

According to the theory expounded by this school evidence presented before the Royal Commission will prepare public opinion for approval of extension of Soviet trade. A strong Quebec group has for some time been seeking increased trade with Russia.

While preliminary arrangements for the textile industry investigation to be conducted by Justice W. F. A. Turgeon are well under way, no date has yet been announced for the opening.

Penitentiary And Radio

The appointment of personnel for the Penitentiary enquiry has yet to be made. In addition to this impressive list of probes Opposition ranks will seek the appointment of a committee to bring to light the facts surrounding the reported attempt to dismiss 120 temporary employees of the parliament staff by Pierre Casgrain just prior to his election as speaker. The government has already announced its intention of enquiring into the control of radio.

Suspension of government grants and administration expenses of activities under special measures submitted to the Supreme Court for a legality test has contributed to a \$12,000,000 decrease in estimates for the fiscal year. Main estimates tabled in the

Oldest and Youngest M.P.'s

R. S. White, 79, veteran Conservative member for St. Antoine-Westmount, oldest member of the House, is pictured here with Rene Antoine Pelletier, 27, member for Peace River, who is the youngest member in the House

House provide for an expenditure of \$384,000,000, as compared with \$396,000,000 last year but supplementary estimates will probably increase the figure to \$400,000,000. Largest increase is in the field of aviation for which a million and a half dollars more is allowed than last year.

Assurance of Rt. Hon. Arthur Meighen, Conservative-Senate leader, that Liberal government legislation will be considered by the Upper Chamber on its merits and not on political grounds is in accordance with the policy which he has been pursuing. Fears have been felt by some that the large Conservative majority in the Senate might be used to block Liberal measures introduced in the House of Commons.

Stevens Stands Firm

Lone representative of the Reconstruction Party, Hon. H. H. Stevens, former Conservative cabinet member, has made it apparent that he is still a figure to be reckoned with. Lashing out at big business interests, chief target of the famed Stevens investigation, the one-time Conservative also struck in no uncertain manner at both major parties, making it apparent that he has no intention of realigning himself with Mr. Bennett. While not prepared to accept the doctrine of Social Credit Mr. Stevens advanced the opinion that the control of credit rested close to the solution of present day difficulties.

Officials concerned with the relief camps which the government intends closing are hopeful that all the camps will be out of existence by the spring of 1937. In the meantime higher wages are to replace the \$5 a month which the men are now being paid.

The new wage rate may become effective March 31 and will be graded. It is understood that the recommendation of the committee which investigated the camps will be accepted. Under this proposal skilled workers will receive \$25 a month, semi-skilled \$20 and unskilled \$15.

Sport, a topic popular in corridor chats, but seldom heard in discussions on the floor, was introduced in the House last week by Thomas L. Church, Toronto Conservative. An ardent sportsman himself, Mr. Church suggested that unless squabbles at the Olympic games which resulted in bad advertising could be stopped, no further grants should be given. He also shot a final barb of satire at the Prime Minister, suggesting that if Mackenzie King could curb a threatened European war by his refusal to back off sanctions, as the Prime Minister had stated earlier in the week, he should be able to pacify the Canadian Amateur Hockey Association.

Force Members' Attendance

The suggested abolition of the system of paying members for more regular attendance of members at the present and future sessions. It is understood that the plan under which op-

posing members were paired for voting may not be followed. If such policy is decided upon it will mean that members will have to be on hand if they desire their votes recorded in Hansard.

A measure to eliminate unemployment of skilled tradesmen across the Dominion has been promised by Prime Minister King, who served notice that the government would deal with a \$25,000,000 building program soon. The works to be undertaken would include repairing and constructing public buildings and harbor and marine improvements.

OBITUARY

Mrs. Emeline Smith

Funeral services for the late Mrs. Emeline Smith, a former resident of Vernon and the Coldstream, were held on Thursday afternoon last from Campbell's Undertaking Parlors with the Rev. Dr. Jenkin H. Davies, pastor of the Vernon United Church, officiating. Interment followed in the Vernon cemetery.

For the past six years Mrs. Smith had resided in Bellingham with her daughter, Mrs. Mary Dayman, and death came on Sunday, February 16. The body was shipped to this city on Thursday of last week.

Mrs. Smith, who was aged 86, had lived in this district for about 22 years, prior to 1910. For five years her husband, the late Henry Smith, who predeceased her ten years ago, was road foreman of the Coldstream municipality, but latterly had lived a retired life in Vernon.

Two daughters and two sons survive, Mrs. Mary Dayman, of Bellingham; Mrs. A. L. Morrison, of New Westminster; and John and William Smith, both of Bend, Oregon.

International Night Featured

(Continued from Page One)

Wales, was keenly interested. On one occasion His Majesty visited the school while she was there, the speaker stated.

In the Old Country, pupils are graded strictly according to age and only a small number of them advance into the higher classes, which correspond to the High Schools in British Columbia.

Scholars from families which are better off than most and those that show special aptitude for studies are given a chance through a scholarship system to acquire a better education. The majority, however, enter factories when the regular courses are completed, Miss Richards related.

Describes Jubilee

Turning attention to other phases of life in England, Miss Richards told of attending the Jubilee celebrations in London last May. She was given a special invitation to attend Buckingham Palace and was privileged to see the King and Queen make an appearance on a balcony above those assembled in the grounds.

During a holiday Miss Richards took a trip to Italy and was even granted a private audience with the Pope. The speaker described in detail the procedure for such an occasion, and also gave interesting sidelights on Italian life.

The feature of the evening's entertainment was the presentation by four ladies of a radio broadcast, during which those present were taken via the airwaves, to different world nations. This "International Program" was in charge of Miss Hilda Cryderman, Past President and organizer of the club, who acted as announcer and master of ceremonies; Miss Ella Richmond, Vice-President; Mrs. Daniel Dry, a member; and Mrs. Frank Briggs, a guest.

The four participants were stationed in another room and the program was transmitted to the audience by radio equipment.

Those present were invited to enjoy an aerial ride to the countries where clubs have been organized. The national anthem or characteristic music of the respective lands was played. The proceedings were greatly enlivened by short humorous features and skits.

MODERN METHOD OF CONTROLLING AUTO TRAFFIC FAVORED

Vernon Council To Introduce By-Law Wiping Out Outworn Arbitrary Speed Limit

The ancient speed limit of 15 miles an hour within the city will be abolished, it was decided by the City Council on Monday night, when notice of a motion to introduce a by-law to this effect was given.

The matter was brought before the Council by the reading of a letter by City Clerk J. G. Edwards from the Police Commission recommending this step.

In supporting and explaining the move, Mayor Prowse stated he had noticed on several occasions while on the bench that prosecution in some cases had been hampered by the inability to fix the speed of a car, and that instead of having this by-law on the statute books the motorist would be charged with driving to the common danger.

The only member of the Council to disagree was Alderman Hurt, who declared that in his opinion a speed limit was necessary, especially on streets approaching an intersection and "stop sign."

High Schools Head Has Greater Faith In School Children

(Continued from Page One)

"We have the same institutions as 25 years ago, and human nature is the same as 5,000 years ago. People also say that civilization is becoming more complex, but I don't think that this is the case. The trend is to a more simple civilization. We are, however, moving faster and the human has 100 wants today for every one required by the man of 100 years ago."

As examples of his statements, he compared the labor of preparing an oil lamp to the modern method of merely pressing an electric light button, and the horse and the modern automobile, in the transportation field.

Striking out at the nationalism which has developed among the major world nations, Mr. Pepper emphasized that "we are being forced to recognize that we are one family, whether we like it or not."

Another, and less desirable feature of civilization, moreover, is the lessening of moral pressure among people. Today, there is not the horror of murder and other crimes that there was in years gone by.

Contrasting problems facing the youth of today with those of 25 years ago, the speaker stated that there are numbers whose morale has to be constantly stiffened and strengthened. When the generation comprising his audience were at school they knew that providing they passed examinations and grades, there was a place waiting for them in the world. Now, however, there are no jobs waiting, the world does not want youth.

Twenty-five years ago the order of things was certain, fixed, on firm ground. "Today," said Mr. Pepper, "hardly anything is sure and you will find any 12 people with a different answer to every question."

"Why are there so many changes taking place throughout the world?" Mr. Pepper asked his audience.

Education is itself to blame, as in the less than 100 years since it was made compulsory, it has dispensed learning and science to everyone.

"We regard the thinker as a builder, but in reality he is a destroyer. Thinking is destructive and not constructive," he asserted.

In concluding his interesting address, Mr. Pepper declared that everybody in life must meet conditions as they arise. Progress is an uphill climb, and you cannot stop or sit down, you must go on."

WATER NOTICE

Diversion and Use
TAKEN NOTICE that The Winfield Lumber and Supply Company Limited, whose address is R.R. No. 1, Kelowna, B.C., will apply for a licence to take and use 2,000 gals. a day of water out of McClure Spring, which flows Southwest and drains into the ground about 50 yards from Spring 1035.
The water will be diverted at a point about the Spring situated on the N.W. 1/4 Sec. 18, Tp. 21, O.D.Y.D., and will be used for steam purposes upon the land described as N.W. 1/4 Sec. 18, Tp. 21, O.D.Y.D.
This notice was posted on the ground on the 30th day of November, 1935.
A copy of this notice and an application for a licence under the "Water Act" will be filed in the office of the Water Recorder at Vernon, B.C.
Objections to the application may be filed with the said Water Recorder or with the Chief Forester of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the date of posting of this notice in a local newspaper.
THE WINFIELD LUMBER AND SUPPLY COMPANY LIMITED, Applicant.
By **JOSEPH B. MARTY,** Agent.
The date of the first publication of this notice is February 6th, 1936. 32-4

Coming Events

Attend the Leap Year Dance, National Hallroom, on Friday, Feb. 28. Admission, including supper, 50c couple. 36-1

There will be a joint meeting of the Men and Women's Christian Clubs in the Burns Memorial Hall, at 8.30 p.m. Wednesday, March 4, when Dr. Stan Valley Co-operative Creamery Association indicate that sales of butter have increased since the attack upon the Association. There could be no finer reflection upon the spirit of loyalty and common sense which has preserved the Okanagan, less damaged by depression than almost any other district in Canada, states Everard Clarke. 36-1

Business Joins Dairy Farmers in Rebutting Action

(Continued from Page One)
nent in the sheep and cattle breeders' association, spring into action. He distributed 3,000 circulars to every home in Kamloops and district urging action on the part of everyone. He directed letters to the Kamloops Board of Trade, Rotary Club and other organizations. On Saturday he besieged Everard Clarke, who was ill in the Vernon Jubilee Hospital, with telegrams urging him to get well quickly and carry on the fight for B.C. farmers' rights to their home market. Unable to get any response from Mr. Clarke, long distance telephone calls were made by Mr. Chetwynd to R. J. Coltart, at Kamloops, urging still more action against the big packing concerns whose action may destroy local markets for farmers and their families.

In printed pamphlets Mr. Chetwynd urged all business men at Kamloops to follow the lead of Safeway Store in Vernon which he said had repudiated the Swift Co. and its methods and was reported to have returned cheap Alberta butter which the manager declared he did not order, and which was found upon him by the concern which seemed to be determined to disrupt the local butter market. From headquarters of the Safeway Stores in Vancouver went instructions to every manager in the Okanagan to buy only butter made from cream produced by Interior dairymen.

So far no statements have been made by Swift Co. but it is understood that O. W. Pearson, general manager from New Westminster, made a visit to the Kamloops branch over the week end.

Claims Okanagan Started Cutting
S. Halksworth reports that the branch manager of the Okanagan Creamery Co. at Grindrod, and appeared to be quite excited. His alibi was, stated Mr. Halksworth, that the price of Noca butter had been cut at Revelstoke. He flourished a paper which he declared was evidence, but which he refused to permit Mr. Halksworth to inspect. He declared this was a free country and he could sell as he pleased. He wanted to sell Al. When the thought of Alberta farmers getting paid 19c a pound in winter flashed before his mind, Mr. Halksworth became quite firm with the man. Cream shippers at Grindrod are aroused.

Revelstoke Dealer is Roused
The sale of Noca butter at Revelstoke is controlled by J. Patterson, who is the proprietor of the Revelstoke meat market, and has a large cold storage plant. When called on the long distance phone, Mr. Patterson stated he was waiting to see Swift's man when he called today, Thursday. He would demand a full explanation as he had not cut prices. If his name was being bandied about by Swift's, which he believed to be the case, they would regret this. In the past, he had been a good customer of Swift's, but he had not decided exactly what he thought of the new man at Kamloops. Anything claimed to have happened at Revelstoke was just an excuse used to demoralize the butter market throughout the Interior.

Stirred Up Hornets Nest
The opinion in some quarters is that the new manager of Swift Co. at Kamloops did not realize just what kind of a hornet's nest he was stirring up when he took a swing at the dairy industry of the North Okanagan; he struck a blow at the valley as a whole. The experience of his predecessor might have been a guide if he had been disposed to follow it. Some believe that since the matter has come to the attention of those in authority, some curb will be applied.

Cream shipments in spite of cold weather have been holding up well. Reports from the office of the Okanagan Valley Co-operative Creamery Association indicate that sales of butter have increased since the attack upon the Association. There could be no finer reflection upon the spirit of loyalty and common sense which has preserved the Okanagan, less damaged by depression than almost any other district in Canada, states Everard Clarke.
